Enclosed Switch

Compact Limit Switch That's Also Thin and Highly Sealed

- Approved by EN, UL, CSA, and CCC (Chinese standard). (Ask your OMRON representative for information on approved models.)
- Sealing characteristics that meet IEC IP67 degree of protection.
- Triple-sealed construction:
- Plunger section sealed via nitrile rubber packing seal and diaphragm; switch section sealed via nitrile rubber cap; cable entrance sealed via encapsulating material.
- Cable lengths of 3 and 5 m available on standard models. Models also available with UL and CSA-certified cables.
- Multiple mounting possible with Switches with Plungers.
- Models with red LED indicators added to series for easy confirmation of operation.
 - (Set by default to light for non-operation.)
- VCTF oil-resistant cables with CE marking. (Applicable only to standard models.)

Model Number Legend (Not all combinations are possible. Ask your OMRON representative for details.) **Standard Models** Weather-resistant Models

(1)(2)(3)

(1) Rated Current

1: 5 A at 250 VAC, 4 A at 30 VDC 2: 5 A at 125 VAC (with LED indicator) 3: 4 A 30 VDC (with LED indicator) 4: 0.1 A at 125 VAC, 0.1 A at 30 VDC 5: 0.1 A at 125 VAC (with LED indicator) 6: 0.1 A at 30 VDC (with LED indicator)

(2) Cable Specifications

- 2: VCTF oil-resistant cable (3 m)
- 3: VCTF oil-resistant cable (5 m)
- 4: VCTF (3 m)
- 5: VCTF (5 m)
- 6: SJT(O) (3 m)
- 7: SJT(O) (5 m)

(3) Actuator

- 01: Pin plunger
- 02: Roller plunger
- 03: Crossroller plunger
- 20: Roller lever
- 24: Roller lever (high-sensitivity model)
- 31: Sealed pin plunger
- 32: Sealed roller plunger
- 33: Sealed crossroller
- 50: Plastic rod
- 60: Center roller lever

Pre-wired Models

(1) Rated Current

- 1: 1 A at 125 VAC, 1 A at 30 VDC
- (Without operation indicator)
- 2: 1 A at 125 VAC (with operation indicator)
- 3: 1 A at 30 VDC (with operation indicator)

(2) Actuator

- 01: Pin plunger
- 02: Roller plunger
- 31: Sealed plunger
- 32: Sealed roller plunger
- 24: Roller lever (high-sensitivity model)

(3) Wiring Specifications

- DK1EJ: Pre-wired models (3 conductors: DC specification)
- AK1EJ: Pre-wired models (3 conductors: AC specification)
- M1J: Connector models for ASI devices (2 conductors: NO wiring)

(4) Cable length

03: 0.3 m

Note: Silicon rubber is used to increase resistance to the environment. Silicon rubber, however, can generate silicon gas. (This can occur at room temperature, but the amount of silicon gas generated increases at higher temperatures.) Silicon gas will react as a result of arc energy and form silicon oxide (SiO2). If silicon oxide accumulates on the contacts, contact interference can occur and can interfere with the device. Before using a Switch, test it under actual application conditions (including the environment and operating frequency) to confirm that no problems will occur in actual.

Applicable Cables

		Туре	For AC	For DC
Appearance	No. of conductors	Cable length	Model	Model
Straight	4	2 m	XS2F-A421-D90-F	XS2F-D421-D80-F
	4	5 m	XS2F-A421-G90-F	XS2F-D421-G80-F

Mounting Plates (Order Separately)

The WL/WL-N model incorporated by equipment can be replaced with the D4C together with the Mounting Plate without changing the position of the dog or cam.

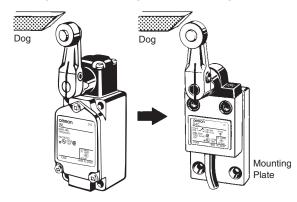

List of Replaceable Models

WL/WL-N model (Actuator)	D4C model (Actuator)	Plate
WLD/WL01D/WLD18-N (Top plunger)	→ D4C-□□01 (Plunger)	D4C-P001
WLD2/WL01D2/WLD28-N (Top roller plunger)	→ D4C-□□02 (Roller plunger)	D4C-P002
WLCA2/WL01CA2/WLCA2-N (Roller lever)	→ D4C-□□20 (Roller lever)	D4C-P020

Note: The WL01 is for micro loads.

Example of Replacement

Note: The position of the dog remains unchanged.

Individual Parts Head/Actuator

Actuator	Head (with actuator)	Actuator
Pin plunger	D4C-0001	
Roller plunger	D4C-0002	
Crossroller plunger	D4C-0003	
Roller lever	D4C-0020	WL-1A100
Roller lever (weather-resistant model)		WL-1A100P1
Roller lever (high-sensitivity model)	D4C-0024	WL-1A100
Variable roller lever	D4C-0027	
Variable rod lever	D4C-0029	HL-1HPA500
Sealed pin plunger	D4C-0031	
Sealed roller plunger	D4C-0032	
Sealed crossroller plunger	D4C-0033	
Plastic rod	D4C-0050	
Center roller lever	D4C-0060	

Note: 1. The model numbers for heads are of the form D4C-00 , with the numbers in the squares indicating the type of actuator.

2. Actuators for plunger models, plastic rod models, and center roller lever models cannot be ordered individually. They must be ordered together with the head.

Leakage Current for LED-indicator Models

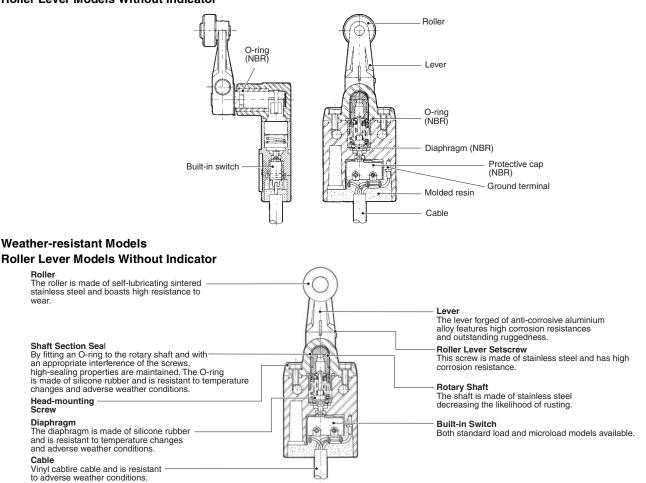

The leakage currents and resistances of LED-indicator models are given in the following table.

Model	Voltage	Leakage current	Resistance
D4C-2	125 VAC	1.7 mA	68 kΩ
D4C-3	30 VDC	1.7 mA	15 kΩ
D4C-5	125 VAC	1.7 mA	68 kΩ
D4C-6	30 VDC	1.7 mA	15 kΩ

Structure and Nomenclature

Structure

Standard Models **Roller Lever Models Without Indicator**

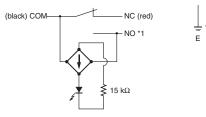

120

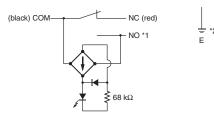

Contact Form Standard Models/Weather-resistant Models Without Operation Indicator

(black)COM - NC (red) — NO *1

With Operation Indicator (Lit when Not Actuated) <24 VDC LED>

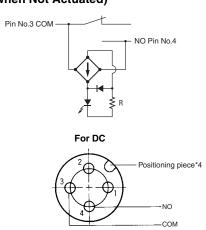

<100 VAC LED>

Connector Models for ASI Devices (-M1J) Without Operation Indicator

With Operation Indicator (Lit when Not Actuated)

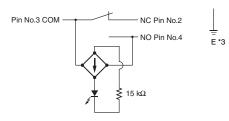

Pre-wired Models (-AK1EJ, -DK1EJ) Without Operation Indicator

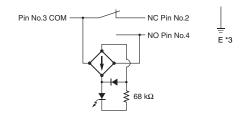

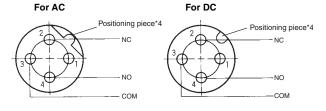

With Operation Indicator (Lit when Not Actuated) <24 VDC LED>

<100 VAC LED>

- *1. NO (white): VCTF oil-resistant cable or VCTF cable.

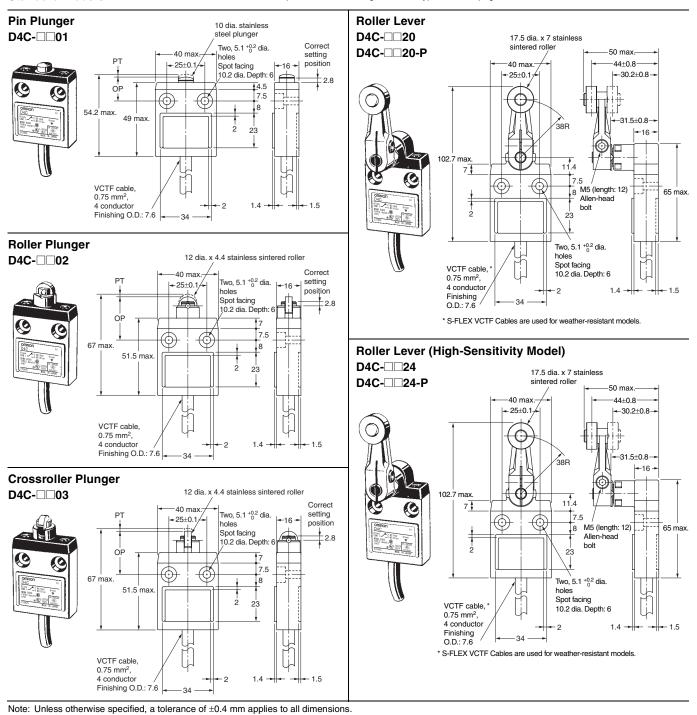

- NO (blue): SJT (O) cable approved by UL and CSA. *2. E (yellow/green): VCTF oil-resistant cable. E (green): VCTF cable or SJT (O) cable approved by UL and CSA. *3. E (ground) is not grounded.
- *4. The position of the positioning piece is not fixed. Using an L-shaped
- connector may result in failure. Use only a straight connector.
- Note: 1. "Lit when not Actuated" means that when the actuator is in the free position, the indicator is lit, and when the actuator is turned or pushed and the contact comes into contact with the NO side, the indicator turns OFF.
 - 2. Leakage current from indicator circuit may cause load's malfunction. Please check the load's OFF current before use the indicator-equipped switch.

D4C

Dimensions and Operating Characteristics

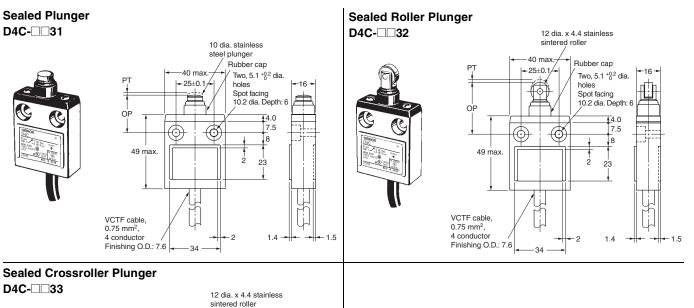

Switches Standard Models

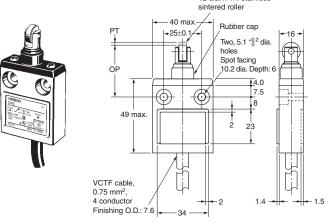

Models without LED indicators are shown in the illustrations and dimensions diagrams. Refer to page 11 for *Models with LED Indicators*. The boxes in the model numbers are replaced with the rating and cable type. Refer to page 1 for the *Model Number Structure*.

Operating characteristics	М	odel	D4C-□□01	D4C-□□02	D4C-□□03	D4C-□□20 D4C-□□20-P	D4C-□□24 D4C-□□24-P
Operating force (OF r	max.	11.77 N	11.77 N	11.77 N	5.69 N	5.69 N
Release force F	RF r	min.	4.41 N	4.41 N	4.41 N	1.47 N	1.47 N

Operating Position C	OP		15.7±1 mm	28.5±1 mm	28.5±1 mm		

D4C

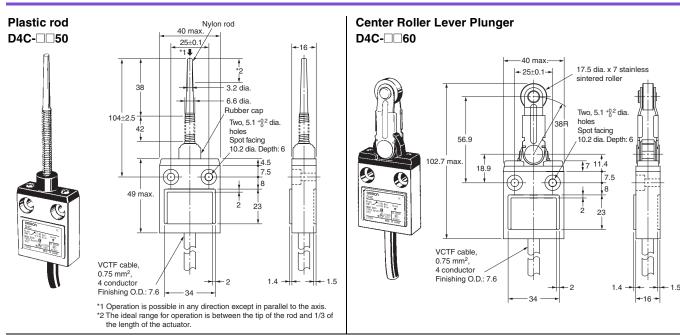

Note: Unless otherwise specified, a tolerance of ± 0.4 mm applies to all dimensions.

Operating characteristics	N	lodel	D4C-□□31	D4C-□□32	D4C-033
Operating force	OF	max.	17.65 N	17.65 N	17.65 N
Release force	BF	min.	4.41 N	4.41 N	4.41 N
Pretravel	PT	max.	1.8 mm	1.8 mm	1.8 mm
Overtravel	OT	min.	3 mm	3 mm	3 mm
Movement Differential	MD	max.	0.2 mm	0.2 mm	0.2 mm
Operating Position	OP		24.9±1 mm	34.3±1 mm	34.3±1 mm
Total travel	TT *		(5) mm	(5) mm	(5) mm

* The TT is a reference value.

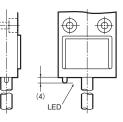

Note: Unless otherwise specified, a tolerance of ± 0.4 mm applies to all dimensions.

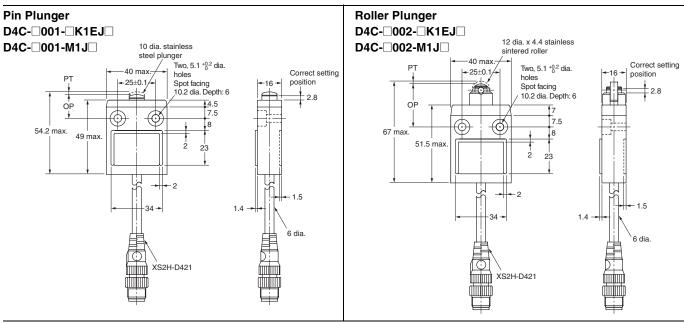

Operating characteristics		Model	D4C-□□50	D4C-□□60
Operating force	OF	max.	1.47 N	6.67 N
Release force	RF	min.		1.47 N
Pretravel	PT	max.	15°	10°±3°
Overtravel	OT	min.		50°
Movement Differential	MD	max.		3°
Operating Position	OP			
Total travel	ΤT			

Models with LED Indicator

The dimensions of the LED indicator for models equipped with one are shown below.

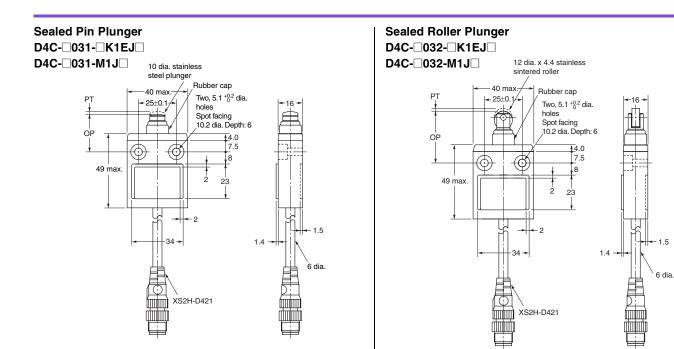

Pre-wired Models

Note: Unless otherwise specified, a tolerance of ± 0.4 mm applies to all dimensions.

Operating characteristics	Model	D4C-□001 -□K1EJ□	D4C-□002 -□K1EJ□
Operating force C	DF max.	11.77 N	11.77 N
Release force F	RF min.	4.41 N	4.41 N
Pretravel F	PT max.	1.8 mm	1.8 mm
Overtravel C	DT min.	3 mm	3 mm
Movement Differential N	ID max.	0.2 mm	0.2 mm
Operating Position C	OP	15.7±1 mm	28.5±1 mm

Note: Specifications are the same for -M1J Switches.

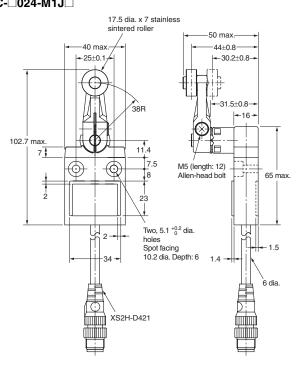

Note: Unless otherwise specified, a tolerance of ± 0.4 mm applies to all dimensions.

Operating characteristics		Model	D4C-□031 -□K1EJ□	D4C-⊡032 -⊡K1EJ⊡
Operating force	OF	max.	17.65 N	17.65 N
Release force	RF	min.	4.41 N	4.41 N
Pretravel	PΤ	max.	1.8 mm	1.8 mm
Overtravel	OT	min.	3 mm	3 mm
Movement Differential	MD	max.	0.2 mm	0.2 mm
Operating Position	OP		24.9±1 mm	34.3±1 mm

Note: Specifications are the same for -M1J Switches

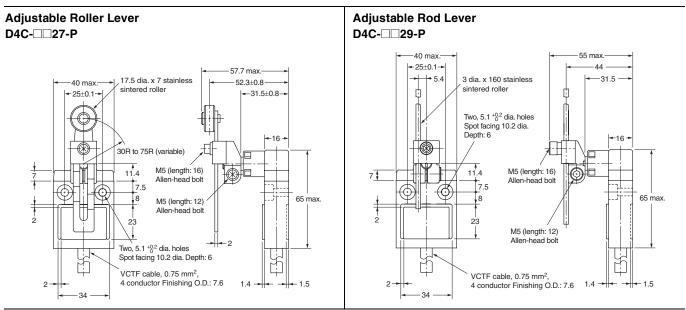

Note: Unless otherwise specified, a tolerance of ± 0.4 mm applies to all dimensions.

Operating characteristics	Model		D4C-□024-□K1EJ□
Operating force	OF	max.	5.69 N
Release force	RF	min.	1.47 N
Pretravel	PΤ		10°±3°
Overtravel	OT	min.	50°
Movement Differential	MD	max.	3°
Operating Position	OP		

Note: Specifications are the same for -M1J Switches

Weather-resistant Models

Note: Unless otherwise specified, a tolerance of ± 0.4 mm applies to all dimensions.

Operating characteristics		Model	D4C-027-P	D4C-□□29-P *
Operating force Release force	OF BF	max. min.	5.69 N 1.47 N	5.69 N 1.47 N
Pretravel	PT	max.	25°	25°
Overtravel	OT	min.	40°	40°
Movement Differential	MD	max.	3°	3°

* Operation characteristics for the D4C-027-P and D4C-029-P are for a lever length of 38 mm.

Safety Precautions

Refer to Safety Precautions for All Limit Switches.

Precautions for Correct Use

Operating Environment

- Seal material may deteriorate if a Switch is used outdoor or where subject to special cutting oils, solvents, or chemicals. Always appraise performance under actual application conditions and set suitable maintenance and replacement periods.
- Install Switches where they will not be directly subject to cutting chips, dust, or dirt. The Actuator and Switch must also be protected from the accumulation of cutting chips or sludge.

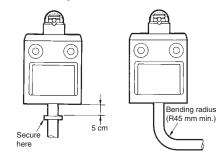

- Constantly subjecting a Switch to vibration or shock can result in wear, which can lead to contact interference with contacts, operation failure, reduced durability, and other problems.
 Excessive vibration or shock can lead to false contact operation or damage. Install Switches in locations not subject to shock and vibration and in orientations that will not produce resonance.
- The Switches have physical contacts. Using them in environments containing silicon gas will result in the formation of silicon oxide (SiO₂) due to arc energy. If silicon oxide accumulates on the contacts, contact interference can occur. If silicon oil, silicon filling agents, silicon cables, or other silicon products are present near the Switch, suppress arcing with contact protective circuits (surge killers) or remove the source of silicon gas.

Handling

The bottom of the Switch at the cable outlet is resin-molded. Secure the cable at a point 5 cm from the Switch bottom to prevent exertion of excess force on the cable.

When bending the cable, provide a bending radius of 45 mm min. so as not to damage the cable insulation or sheath. Excessive bending may cause fire or leakage current.

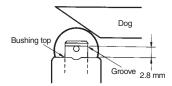

Connections

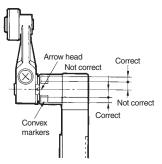

- Be sure to connect a fuse with a breaking current 1.5 to 2 times larger than the rated current to the Limit Switch in series in order to protect the Limit Switch from damage due to short-circuiting.
- \bullet When using the Limit Switch for the EN ratings, use the gl or gG 10- A fuse.

Operation

- Operation method, shapes of cam and dog, operating frequency, and overtravel have a significant effect on the service life and precision of a Limit Switch. For this reason, the dog angle must be 30° max., the surface roughness of the dog must be 6.3 S min. and hardness must be Hv 400 to 500.
- To allow the plunger-type actuator to travel properly, adjust the dog and cam to the proper setting positions. The proper position is where the plunger groove fits the bushing top.

• To allow the roller lever-type actuator to travel properly, adjust the dog and cam so that the arrow head is positioned between the two convex markers as shown below.

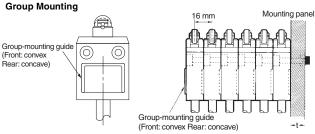

Indicator

 Indicator-equipped switch has contacts and indicator in parallel. When contacts are open, leakage current flows through the indicator circuit and may cause load's malfunction.
 Please check the load's OFF current before use the indicatorequipped switch.

Mounting

 A maximum of 6 Switches may be group-mounted. In this case, pay attention to the mounting direction so that the convex part of the group-mounting guide on one Switch fits into the concave part of the guide on the other Switch as shown in the figure below. For group mounting, the mounting panel must have a thickness (t) of 6 mm min.

 If the mounting panel is warped or has protruding parts, a malfunction may result. Make sure that the mounting panel is not warped and has even surfaces.
 Mounting Holes

- Use a Switch with a rubber cap when using the plunger type in an environment where malfunction is possible due to environmental conditions such as dust or cutting chips which may not allow resetting.
- Do not expose the Switch to water exceeding 70°C or use it in steam.
- When the D4C is used in a circuit of a device to be exported to Europe, classified as Overvoltage Class III as specified in IEC664, provide a contact protection circuit.
- Tighten each screw to a torque according to the following table.

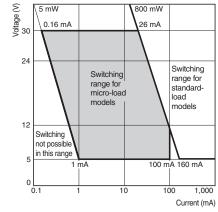

No.	Туре	Appropriate tightening torque*
1	M5 Allen-head bolt	4.90 to 5.88 N⋅m
2	M3.5 head mounting screw	0.78 to 0.88 N⋅m
3	M5 Allen-head bolt	4.90 to 5.88 N⋅m

* By removing the two screws from the head, the head direction can be rotated 180°. After changing the head direction, re-tighten to the torque specified above. Be careful not to allow any foreign substance to enter the Switch.

Micro-load Models (D4C-4, -5, -6)

Micro-load models can be used for switching in the range shown below.

Read and understand this catalog.

Please read and understand this catalog before purchasing the products. Please consult your OMRON representative if you have any questions or comments.

Warranties.

(a) Exclusive Warranty. Omron's exclusive warranty is that the Products will be free from defects in materials and workmanship for a period of twelve months from the date of sale by Omron (or such other period expressed in writing by Omron). Omron disclaims all other warranties, express or implied.

(b) Limitations. OMRON MAKES NO WARRANTY OR REPRESENTATION, EXPRESS OR IMPLIED, ABOUT NON-INFRINGEMENT, MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE OF THE PRODUCTS. BUYER ACKNOWLEDGES THAT IT ALONE HAS DETERMINED THAT THE

PRODUCTS WILL SUITABLY MEET THE REQUIREMENTS OF THEIR INTENDED USE.

Omron further disclaims all warranties and responsibility of any type for claims or expenses based on infringement by the Products or otherwise of any intellectual property right. (c) Buyer Remedy. Omron's sole obligation hereunder shall be, at Omron's election, to (i) replace (in the form originally shipped with Buyer responsible for labor charges for removal or replacement thereof) the non-complying Product, (ii) repair the non-complying Product, or (iii) repay or credit Buyer an amount equal to the purchase price of the non-complying Product; provided that in no event shall Omron be responsible for warranty, repair, indemnity or any other claims or expenses regarding the Products unless Omron's analysis confirms that the Products were properly handled, stored, installed and maintained and not subject to contamination, abuse, misuse or inappropriate modification. Return of any Products by Buyer must be approved in writing by Omron before shipment. Omron Companies shall not be liable for the suitability or unsuitability or the results from the use of Products in combination with any electrical or electronic components, circuits, system assemblies or any other materials or substances or environments. Any advice, recommendations or information given orally or in writing, are not to be construed as an amendment or addition to the above warranty.

See <u>http://www.omron.com/global/</u> or contact your Omron representative for published information.

Limitation on Liability; Etc.

OMRON COMPANIES SHALL NOT BE LIABLE FOR SPECIAL, INDIRECT, INCIDENTAL, OR CONSEQUENTIAL DAMAGES, LOSS OF PROFITS OR PRODUCTION OR COMMERCIAL LOSS IN ANY WAY CONNECTED WITH THE PRODUCTS, WHETHER SUCH CLAIM IS BASED IN CONTRACT, WARRANTY, NEGLIGENCE OR STRICT LIABILITY.

Further, in no event shall liability of Omron Companies exceed the individual price of the Product on which liability is asserted.

Suitability of Use.

Omron Companies shall not be responsible for conformity with any standards, codes or regulations which apply to the combination of the Product in the Buver's application or use of the Product. At Buver's request. Omron will provide applicable third party certification documents identifying ratings and limitations of use which apply to the Product. This information by itself is not sufficient for a complete determination of the suitability of the Product in combination with the end product, machine, system, or other application or use. Buyer shall be solely responsible for determining appropriateness of the particular Product with respect to Buyer's application, product or system. Buyer shall take application responsibility in all cases.

NEVER USE THE PRODUCT FOR AN APPLICATION INVOLVING SERIOUS RISK TO LIFE OR PROPERTY OR IN LARGE QUANTITIES WITHOUT ENSURING THAT THE SYSTEM AS A WHOLE HAS BEEN DESIGNED TO ADDRESS THE RISKS, AND THAT THE OMRON PRODUCT(S) IS PROPERLY RATED AND INSTALLED FOR THE INTENDED USE WITHIN THE OVERALL EQUIPMENT OR SYSTEM.

Programmable Products.

Omron Companies shall not be responsible for the user's programming of a programmable Product, or any consequence thereof

Performance Data.

Data presented in Omron Company websites, catalogs and other materials is provided as a guide for the user in determining suitability and does not constitute a warranty. It may represent the result of Omron's test conditions, and the user must correlate it to actual application requirements. Actual performance is subject to the Omron's Warranty and Limitations of Liability.

Change in Specifications.

Product specifications and accessories may be changed at any time based on improvements and other reasons. It is our practice to change part numbers when published ratings or features are changed, or when significant construction changes are made. However, some specifications of the Product may be changed without any notice. When in doubt, special part numbers may be assigned to fix or establish key specifications for your application. Please consult with your Omron's representative at any time to confirm actual specifications of purchased Product.

Errors and Omissions. Information presented by Omron Companies has been checked and is believed to be accurate; however, no responsibility is assumed for clerical, typographical or proofreading errors or omissions.

In the interest of product improvement, specifications are subject to change without notice.
