## Power-switching Compact General-purpose Relays

## 껭 (5) $\triangle C \epsilon$

- The standard models include models that are compliant with the UL, CSA, and SEV safety standards and with the Electrical Appliances and Material Safety Act.
- Equipped with an arc barrier for arc interruption.
- Withstand voltages up to $2,000 \mathrm{~V}$.
- New built-in diode and built-in CR circuit models have joined the series.
- The lineup also includes models that are compliant with the LR and VDE safety standards.
- Single-pole and double-pole models have AC4 ratings and DC2 ratings (operating coil ratings: 100/110 VAC, 110/120 VAC, 200/220 VAC, 220/240 VAC, and 100/ 110 VDC).
- Three-pole and four-pole models have AC4 ratings and DC2 ratings (operating coil ratings: 100/110 VAC, 200/220 VAC and 100/110 VDC).

Refer to the Common Relay Precautions.

Note: 1. Cells with a diagonal line cannot be manufactured. Ask your OMRON representative for details on manufacturing products for cells containing "---" in the above table.
2. If \#187 tab terminals are required, use the LY1F-T2 or LY2F-T2 (single-pole or double-pole models only).
3. Refer to page 16 for information on plug-in terminal and socket combinations.
4. Items with an asterisk (*) in the table are certified for UL, CSA, and SEV. This is indicated with a certification mark on the products.
5. Items with two asterisks $\left(^{* *}\right)$ in the table are certified for UL and CSA. This is indicated with a certification mark on the products.
6. All models in the table are certified for IEC (TÜV).
7. The models with plug-in terminals (single-pole, double-pole, and 4-pole) were combined with the PTF-E for the EC Declaration of Conformity. These products display the CE Marking.

## Accessories (Order Separately)

## Connection Sockets

| Connecting method | Mounting method | Number of poles | Model |
| :---: | :---: | :---: | :---: |
| Front-mounting Sockets (PTA $\square$ ) | Track or screw mounting | 1 or 2 | PTF08A |
|  |  |  | PTF08A-E *1 |
|  |  | 3 | PTF11A |
|  |  | 4 | PTF14A |
|  |  |  | PTF14A-E*1 |
| Back-mounting Sockets (PT $\square$ ) | Solder terminals | 1 or 2 | PT08*2 |
|  |  | 3 | PT11 *2 |
|  |  | 4 | PT14*2 |
|  | Wrapping terminals | 1 or 2 | PT08QN |
|  |  | 3 | PT11QN |
|  |  | 4 | PT14QN |
|  | Relays with PCB Terminals | 1 or 2 | PT08-0 |
|  |  | 3 | PT11-0 |
|  |  | 4 | PT14-0 |

*1. The PTF $\square A-E$ Relays have finger protection. Round terminals cannot be used. Use forked terminals.
*2. When ordering PT08, PT11, or PT14 sockets, please note that the minimum order quantity is 10 and orders are accepted in multiples of the minimum order.

## Relay Hold-down Clips

| Application Item | Used with Socket |  | Used with Socket mounting plate | For models with built-in CR circuits |  |
| :---: | :---: | :---: | :---: | :---: | :---: |
| Appearance |  |  |  |  |  |
| Model | PYC-A1 | PYC-P | PYC-S | Y92H-3 | PYC-1 |
| Minimum order (quantity)* | 100 | 100 | 10 | 10 | 10 |

* Orders are accepted in multiples of the minimum order.

## Socket Mounting Plates

| Applicable sockets | Number of sockets |  |
| :--- | :---: | :--- |
| PT08 <br> PT08QN | 1 | PYP-1*1 |
|  | 18 | PYP-18*2 |
|  | 36 | PYP-36*2 |
| PT11 | 1 | PTP-1-3 |
|  | 12 | PTP-12 |
|  | 1 | PTP-1 |
|  | 10 | PTP-10 |

*1. When ordering PYP-1, please note that the minimum order quantity is 10 and orders are accepted in multiples of the minimum order. *2. PYP-18 and PYP-36 can be cut to any required length.

|  | 100/110 | 15/15.9 |  | 6,900 | 32.0 | 63.7 |  |  |  |  |

Note: 1. The rated current and coil resistance are measured at a coil temperature of $23^{\circ} \mathrm{C}$ with tolerances of $+15 \% /-20 \%$ for the $A C$ rated current and $\pm 15 \%$ for the DC coil resistance.
2. The AC coil resistance and inductance values are reference values only. (at 60 Hz ).
3. Operating characteristics were measured at a coil temperature of $23^{\circ} \mathrm{C}$.
4. The maximum voltage capacity was measured at an ambient temperature of $23^{\circ} \mathrm{C}$.
$* 1$. There is variation between products, but actual values are $80 \%$ max.
To ensure operation, apply at least $80 \%$ of the rated value (at a coil temperature of $+23^{\circ} \mathrm{C}$ ).
*2. The actual values are $30 \% \mathrm{~min}$. for $A C$ and $10 \% \mathrm{~min}$. for DC. To ensure release, use a value that is lower than the specified value.

Refer to List of Certified Models for a list of models that are certified for safety standards and the Electrical Appliances and Material Safety Act.

## Characteristics

| Item Type |  | Standard models, models with built-in operation indicators, models with built-in CR circuits, and models with built-in diodes | Bifurcated contacts |
| :---: | :---: | :---: | :---: |
| Contact resistance*1 |  | $50 \mathrm{~m} \Omega$ max. |  |
| Operating time*2 |  | 25 ms max. |  |
| Release time*2 |  | 25 ms max. |  |
| Maximum operating frequency | Mechanical | 18,000 operations/h |  |
|  | Rated load | 1,800 operations/h |  |
| Insulation resistance*3 |  | $100 \mathrm{M} \Omega \mathrm{min}$. |  |
| Dielectric strength | Between coil and contacts | 2,000 VAC at $50 / 60 \mathrm{~Hz}$ for 1 min . |  |
|  | Between contacts of different polarity |  |  |
|  | Between contacts of the same polarity | 1,000 VAC at $50 / 60 \mathrm{~Hz}$ for 1 min . |  |
| Vibration resistance | Destruction | 10 to 55 to $10 \mathrm{~Hz}, 0.5-\mathrm{mm}$ single amplitude ( $1.0-\mathrm{mm}$ double amplitude) |  |
|  | Malfunction | 10 to 55 to $10 \mathrm{~Hz}, 0.5-\mathrm{mm}$ single amplitude ( $1.0-\mathrm{mm}$ double amplitude) |  |
| Shock resistance | Destruction | 1,000 m/s ${ }^{2}$ |  |
|  | Malfunction | $200 \mathrm{~m} / \mathrm{s}^{2}$ |  |
| Endurance | Mechanical | AC: $50,000,000$ operations min. DC: 100,000,000 operations min. | (switching frequency: 18,000 operations/h) |
|  | Electrical*4 | 1-, 3-, 4-pole: 200,000 operations min. 2-pole: 500,000 operations min. (rated load, operating frequency: 1,800 operations/h) | 2-pole: 500,000 operations min. (rated load, operating frequency: 1,800 operations/h) |
| Failure rate P | ue (reference value)*5 | 100 mA at 5 VDC | 10 mA at 5 VDC |
| Weight |  | 1-pole and 2-pole: $40 \mathrm{~g}, 3$-pole: Approx | $50 \mathrm{~g}, 4$-pole: Approx. 70 g |

Note: The values at the left are initial values.
*1. Measurement conditions: 1 A at 5 VDC using the voltage 1. drop method
. Measurement conditions: With rated operating power applied, not including contact bounce.
*3. Measurement conditions: For 500 VDC applied to the same location as for dielectric strength measurement.
*4. Ambient temperature condition: $23^{\circ} \mathrm{C}$
5. This value was measured at a switching frequency of 120 operations per minute.

## Details on Safety-standard-certified

## Models, LY $\square$

- Standard models are certified for the UL, CSA, and SEV safety standards.
- Refer to Model Number Structure on page 1 for a list of applicable models.
- The rated values for safety standard certification are not the same as individually defined performance values. Always check the specifications before use.
UL-certified Models (File No. E41643) YJ

| Model | Coil ratings | Number of poles | Contact ratings | Certified number of operations |
| :---: | :---: | :---: | :---: | :---: |
| LY | 6 to 240VAC 6 to 125 VDC | 1 | 15A, 120VAC (General use) | 100,000 operations |
|  |  |  | 15A, 240VAC (General use) | 6,000 operations |
|  |  |  | 15A, 30VDC (Resistive) |  |
|  |  |  | 1/2HP, 120VAC | 100,000 operations |
|  |  |  | 8.5FLA, 30LRA, 120VAC |  |

## Mounting Height with Sockets <br> Front-mounting Sockets <br> Back-mounting Sockets

Note: 1. The PTF $\square A$ can be mounted on a track or with screws.
2. The measurements in parentheses are for the LY $\square-C R$ (built-in CR circuit).

## Safety Precautions

Refer to the Common Relay Precautions for precautions that apply to all Relays.

## Precautions for Correct Use

- Use two M3 screws to attach case-surface-mounted models (LY1F, LY2F, LY3F, and LY4F) and tighten the screws securely. (Normal tightening torque: $0.98 \mathrm{~N} \cdot \mathrm{~m}$ )
- For Relays with Tab Terminals, select a wire diameter for the lead wires that connect to the faston receptacle terminals that is within the allowed range for the load current.
- Do not impose excessive external force on the Relay when inserting the Relay to the faston receptacle or pulling the Relay out from the faston receptacle. Do not attempt to insert a terminal diagonally or insert or pull out more than one terminal at the same time.
- LY Single-contact Relays are for power switching applications. Do not use the LY Series for switching minute loads of 100 mA or less, such as signals.

## About the Built-in Diode and CR Elements

The diode or CR element that are built into the Relay are designed to absorb the reverse voltage from the Relay coil. If a large surge in voltage is applied to the diode or CR element from an external source, the element will be destroyed.
If there is the possibility of large voltage surges that could be applied to the elements from an external source, take any necessary surge absorption measures.

## Applying 10 A or More When Using an LY Relay with the Following Sockets

When you use an LY-series relay in combination with the PTF08A, PTF08A-E, or PT08, connect each of the following terminal pairs: (1) to (2), (3) to (4), and (5) to (6).

## Relay Replacement

To replace the Relay, turn OFF the power supply to the load and Relay coil sides to prevent unintended operation and possible electrical shock.

Attaching and Removing Relay Hold-down Clips
When you attach a Hold-down Clip to or remove it from a Socket, wear gloves or take other measures to prevent injuring your fingers on the Hold-down Clip.

Read and understand this catalog.
Please read and understand this catalog before purchasing the products. Please consult your OMRON representative if you have any questions or comments.

## Warranties.

(a) Exclusive Warranty. Omron's exclusive warranty is that the Products will be free from defects in materials and workmanship for a period of twelve months from the date of sale by Omron (or such other period expressed in writing by Omron). Omron disclaims all other warranties, express or implied.
(b) Limitations. OMRON MAKES NO WARRANTY OR REPRESENTATION, EXPRESS OR IMPLIED, ABOUT NON-INFRINGEMENT, MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE OF THE PRODUCTS. BUYER ACKNOWLEDGES THAT IT ALONE HAS DETERMINED THAT THE
PRODUCTS WILL SUITABLY MEET THE REQUIREMENTS OF THEIR INTENDED USE.
Omron further disclaims all warranties and responsibility of any type for claims or expenses based on infringement by the Products or otherwise of any intellectual property right. (c) Buyer Remedy. Omron's sole obligation hereunder shall be, at Omron's election, to (i) replace (in the form originally shipped with Buyer responsible for labor charges for removal or replacement thereof) the non-complying Product, (ii) repair the non-complying Product, or (iii) repay or credit Buyer an amount equal to the purchase price of the non-complying Product; provided that in no event shall Omron be responsible for warranty, repair, indemnity or any other claims or expenses regarding the Products unless Omron's analysis confirms that the Products were properly handled, stored, installed and maintained and not subject to contamination, abuse, misuse or inappropriate modification. Return of any Products by Buyer must be approved in writing by Omron before shipment. Omron Companies shall not be liable for the suitability or unsuitability or the results from the use of Products in combination with any electrical or electronic components, circuits, system assemblies or any other materials or substances or environments. Any advice, recommendations or information given orally or in writing, are not to be construed as an amendment or addition to the above warranty.
See http://www.omron.com/global/ or contact your Omron representative for published information.
Limitation on Liability; Etc.
OMRON COMPANIES SHALL NOT BE LIABLE FOR SPECIAL, INDIRECT, INCIDENTAL, OR CONSEQUENTIAL DAMAGES, LOSS OF PROFITS OR PRODUCTION OR COMMERCIAL LOSS IN ANY WAY CONNECTED WITH THE PRODUCTS, WHETHER SUCH CLAIM IS BASED IN CONTRACT, WARRANTY, NEGLIGENCE OR STRICT LIABILITY.
Further, in no event shall liability of Omron Companies exceed the individual price of the Product on which liability is asserted.

## Suitability of Use.

Omron Companies shall not be responsible for conformity with any standards, codes or regulations which apply to the combination of the Product in the Buyer's application or use of the Product. At Buyer's request, Omron will provide applicable third party certification documents identifying ratings and limitations of use which apply to the Product. This information by itself is not sufficient for a complete determination of the suitability of the Product in combination with the end product, machine, system, or other application or use. Buyer shall be solely responsible for determining appropriateness of the particular Product with respect to Buyer's application, product or system. Buyer shall take application responsibility in all cases.
NEVER USE THE PRODUCT FOR AN APPLICATION INVOLVING SERIOUS RISK TO LIFE OR PROPERTY OR IN LARGE QUANTITIES WITHOUT ENSURING THAT THE SYSTEM AS A WHOLE HAS BEEN DESIGNED TO ADDRESS THE RISKS, AND THAT THE OMRON PRODUCT(S) IS PROPERLY RATED AND INSTALLED FOR THE INTENDED USE WITHIN THE OVERALL EQUIPMENT OR SYSTEM.

Programmable Products.
Omron Companies shall not be responsible for the user's programming of a programmable Product, or any consequence thereof.

Performance Data.
Data presented in Omron Company websites, catalogs and other materials is provided as a guide for the user in determining suitability and does not constitute a warranty. It may represent the result of Omron's test conditions, and the user must correlate it to actual application requirements. Actual performance is subject to the Omron's Warranty and Limitations of Liability.

## Change in Specifications

Product specifications and accessories may be changed at any time based on improvements and other reasons. It is our practice to change part numbers when published ratings or features are changed, or when significant construction changes are made. However, some specifications of the Product may be changed without any notice. When in doubt, special part numbers may be assigned to fix or establish key specifications for your application. Please consult with your Omron's representative at any time to confirm actual specifications of purchased Product.
