## ON Semiconductor ${ }^{\oplus}$

## To learn more about ON Semiconductor, please visit our website at www.onsemi.com

Please note: As part of the Fairchild Semiconductor integration, some of the Fairchild orderable part numbers will need to change in order to meet ON Semiconductor's system requirements. Since the ON Semiconductor product management systems do not have the ability to manage part nomenclature that utilizes an underscore ( $\_$), the underscore ( $\_$) in the Fairchild part numbers will be changed to a dash (-). This document may contain device numbers with an underscore (_). Please check the ON Semiconductor website to verify the updated device numbers. The most current and up-to-date ordering information can be found at www.onsemi.com. Please email any questions regarding the system integration to Fairchild questions@onsemi.com.

Connection Diagram

## Functional Description

The LCX16841 contains twenty D-type latches with 3-STATE standard outputs. The device is byte controlled with each byte functioning identically, but independent of the other. Control pins can be shorted together to obtain full 20-bit operation. The following description applies to each byte. When the Latch Enable ( $L E_{n}$ ) input is HIGH, data on the $D_{n}$ enters the latches. In this condition the latches are transparent, i.e. a latch output will change states each time

## Truth Tables

| Inputs |  |  | Outputs |
| :---: | :---: | :---: | :---: |
| $\mathrm{LE}_{\mathbf{1}}$ | $\overline{\mathrm{OE}}_{\mathbf{1}}$ | $\mathrm{D}_{\mathbf{0}}-\mathrm{D}_{\mathbf{9}}$ | $\mathrm{O}_{\mathbf{0}}-\mathrm{O}_{\mathbf{9}}$ |
| X | H | X | Z |
| H | L | L | L |
| $H$ | L | H | H |
| L | L | X | $\mathrm{O}_{0}$ |

| Inputs |  |  |  |
| :---: | :---: | :---: | :---: |
| $\overline{\mathrm{OE}}_{2}$ | $\mathrm{D}_{10}-\mathrm{D}_{19}$ | $\mathbf{O}_{10}-\mathbf{O}_{19}$ |  |
| X | H | X | Z |
| H | L | L | L |
| H | L | H | H |
| L | L | X | $\mathrm{O}_{0}$ |

H = HIGH Voltage Level
L = LOW Voltage Level
X = Immaterial
$\mathrm{Z}=$ High Impedance
$\mathrm{O}_{0}=$ Previous $\mathrm{O}_{0}$ before HIGH-to-LOW transition of Latch Enable
its $D$ input changes. When $L E_{n}$ is LOW, the latches store information that was present on the $D$ inputs a setup time preceding the HIGH-to-LOW transition of $\mathrm{LE}_{\mathrm{n}}$. The 3-STATE standard outputs are controlled by the Output Enable $\left(\overline{\mathrm{OE}}_{n}\right)$ input. When $\overline{\mathrm{OE}}_{\mathrm{n}}$ is LOW, the standard outputs are in the 2-state mode. When $\overline{\mathrm{OE}}_{\mathrm{n}}$ is HIGH, the standard outputs are in the high impedance mode but this does not interfere with entering new data into the latches.

Logic Diagrams

LIFE SUPPORT POLICY
FAIRCHILD'S PRODUCTS ARE NOT AUTHORIZED FOR USE AS CRITICAL COMPONENTS IN LIFE SUPPORT DEVICES OR SYSTEMS WITHOUT THE EXPRESS WRITTEN APPROVAL OF THE PRESIDENT OF FAIRCHILD SEMICONDUCTOR CORPORATION. As used herein:

1. Life support devices or systems are devices or systems which, (a) are intended for surgical implant into the body, or (b) support or sustain life, and (c) whose failure to perform when properly used in accordance with instructions for use provided in the labeling, can be reasonably expected to result in a significant injury to the user.
2. A critical component in any component of a life support device or system whose failure to perform can be reasonably expected to cause the failure of the life support device or system, or to affect its safety or effectiveness.

#### Abstract

ON Semiconductor and ON are trademarks of Semiconductor Components Industries, LLC dba ON Semiconductor or its subsidiaries in the United States and/or other countries. ON Semiconductor owns the rights to a number of patents, trademarks, copyrights, trade secrets, and other intellectual property. A listing of ON Semiconductor's product/patent coverage may be accessed at www.onsemi.com/site/pdf/Patent-Marking.pdf. ON Semiconductor reserves the right to make changes without further notice to any products herein. ON Semiconductor makes no warranty, representation or guarantee regarding the suitability of its products for any particular purpose, nor does ON Semiconductor assume any liability arising out of the application or use of any product or circuit, and specifically disclaims any and all liability, including without limitation special, consequential or incidental damages. Buyer is responsible for its products and applications using ON Semiconductor products, including compliance with all laws, regulations and safety requirements or standards, regardless of any support or applications information provided by ON Semiconductor. "Typical" parameters which may be provided in ON Semiconductor data sheets and/or specifications can and do vary in different applications and actual performance may vary over time. All operating parameters, including "Typicals" must be validated for each customer application by customer's technical experts. ON Semiconductor does not convey any license under its patent rights nor the rights of others. ON Semiconductor products are not designed, intended, or authorized for use as a critical component in life support systems or any FDA Class 3 medical devices or medical devices with a same or similar classification in a foreign jurisdiction or any devices intended for implantation in the human body. Should Buyer purchase or use ON Semiconductor products for any such unintended or unauthorized application, Buyer shall indemnify and hold ON Semiconductor and its officers, employees, subsidiaries, affiliates, and distributors harmless against all claims, costs, damages, and expenses, and reasonable attorney fees arising out of, directly or indirectly, any claim of personal injury or death associated with such unintended or unauthorized use, even if such claim alleges that ON Semiconductor was negligent regarding the design or manufacture of the part. ON Semiconductor is an Equal Opportunity/Affirmative Action Employer. This literature is subject to all applicable copyright laws and is not for resale in any manner.
