## ON Semiconductor ${ }^{\oplus}$

## To learn more about ON Semiconductor, please visit our website at www.onsemi.com

Please note: As part of the Fairchild Semiconductor integration, some of the Fairchild orderable part numbers will need to change in order to meet ON Semiconductor's system requirements. Since the ON Semiconductor product management systems do not have the ability to manage part nomenclature that utilizes an underscore ( $\_$), the underscore ( $\_$) in the Fairchild part numbers will be changed to a dash (-). This document may contain device numbers with an underscore (_). Please check the ON Semiconductor website to verify the updated device numbers. The most current and up-to-date ordering information can be found at www.onsemi.com. Please email any questions regarding the system integration to Fairchild questions@onsemi.com.

## FSUSB11 — Low-Power, Full-Speed (12Mbps) Switch

## Features

- Space Saving MicroPak ${ }^{\text {TM }}$ ( $1.6 \times 2.1 \mathrm{~mm}$ )
- USB 1.1 Signal Switching Compliant
- 3db Bandwidth: >350MHz
- Maximum $1.15 \Omega \mathrm{R}_{\mathrm{ON}}$ at $4.5 \mathrm{~V} \mathrm{~V}_{\mathrm{CC}}$ and $4 \Omega$ for 2.7V Supply
- $0.3 \Omega$ Maximum R $\mathrm{O}_{\mathrm{ON}}$ Flatness for +5 V Supply
- Broad $\mathrm{V}_{\mathrm{cc}}$ Operating Range: 1.65 V to 5.5 V
- Fast Turn-On and Turn-Off Time
- Break-Before-Make Enable Circuitry
- Over-Voltage Tolerant, TTL-Compatible Control Input

## Applications

- Cell Phones, PDAs, Digital Cameras, Notebook Computers

## Description

The FSUSB11 is a high-performance, dual Single-Pole Double-Throw (SPDT) switch designed for switching USB 1.1 signals. The device features ultra-low on resistance ( $R_{\text {ON }}$ ) of $1.15 \Omega$ maximum at $4.5 \mathrm{~V} \mathrm{~V}_{\mathrm{CC}}$ and $4.3 \Omega$ at 2.7 V supply. High bandwidth and ultra low (Ron) make this switch able to pass both USB low- and fullspeed signal with minimum signal distortion. The device is fabricated with sub-micron CMOS technology to achieve fast switching speeds and designed for break-before-make operation. The select input is TTL-level compatible.

## Ordering Information

| Part Number | Operating <br> Temperature <br> Range | Eco <br> Status | Packing <br> Method |  |

## Pin Descriptions

| TSSOP Pin \# | MicroPak ${ }^{\text {TM }}$ Pin $\#$ | Pin Names | Description |
| :---: | :---: | :---: | :---: |
| $1,3,4,6,9,12$ | $1,3,4,6,7,9$ | $\mathrm{D}+, \mathrm{D}_{1+}, \mathrm{D}^{2}, \mathrm{D}_{1-}, \mathrm{D}_{2-}, \mathrm{D}_{2}+$ | Data Ports |
| 2,5 | 10 | GND | Ground |
| 7,8 | NC | No Connect |  |
| 10,13 | 2,8 | $\mathrm{~S}_{1}, \mathrm{~S}_{2}$ | Control Input |
| 11,14 | 5 | $\mathrm{~V}_{\mathrm{CC}}$ | Supply Voltage |

## Truth Table

| Control Inputs | Function |
| :---: | :---: |
| Low Logic Level | $D_{1}$ Connected to D+/D- |
| High Logic Level | $\mathrm{D}_{2}$ Connected to D+/D- |

## Absolute Maximum Ratings

Stresses exceeding the absolute maximum ratings may damage the device. The device may not function or be operable above the recommended operating conditions and stressing the parts to these levels is not recommended. In addition, extended exposure to stresses above the recommended operating conditions may affect device reliability. The absolute maximum ratings are stress ratings only.

| Symbol | Parameter | Min. | Max. | Unit |
| :---: | :--- | :---: | :---: | :---: |
| $\mathrm{V}_{\mathrm{CC}}$ | Supply Voltage | -0.5 | 6.0 | V |
| $\mathrm{~V}_{\mathrm{S}}$ | Switch Voltage | -0.5 | $\mathrm{~V}_{\mathrm{CC}}+0.5$ | V |
| $\mathrm{~V}_{\mathrm{IN}}$ | Input Voltage ${ }^{(1)}$ | -0.5 | 6.0 | V |
| $\mathrm{I}_{\mathrm{K}}$ | Input Diode Current | -50 |  | mA |
| $\mathrm{I}_{\mathrm{SW}}$ | Switch Current |  | 200 | mA |
| $\mathrm{I}_{\text {SWPEAK }}$ | Peak Switch Current <br> (Pulsed at 1ms Duration, <10\% Duty Cycle) |  | 400 | mA |
| $\mathrm{~T}_{\text {STG }}$ | Storage Temperature Range | -65 | +150 | ${ }^{\circ} \mathrm{C}$ |
| $\mathrm{T}_{\mathrm{J}}$ | Maximum Junction Temperature |  | +150 | ${ }^{\circ} \mathrm{C}$ |
| $\mathrm{T}_{\mathrm{L}}$ | Lead Temperature (Soldering, 10 Seconds) |  | +260 | ${ }^{\circ} \mathrm{C}$ |
| ESD | Human Body Model, JESD22-A114 |  | 8 | kV |

## Note:

1. The input and output negative voltage ratings may be exceeded if the input and output diode current ratings are observed.

## Recommended Operating Conditions

The Recommended Operating Conditions table defines the conditions for actual device operation. Recommended operating conditions are specified to ensure optimal performance to the datasheet specifications. Fairchild does not recommend exceeding them or designing to Absolute Maximum Ratings.

| Symbol | Parameter | Min. | Max. | Unit |
| :---: | :--- | :---: | :---: | :---: |
| $\mathrm{V}_{\mathrm{CC}}$ | Power Supply | 1.65 | 5.50 | V |
| $\mathrm{~V}_{\mathrm{IN}}$ | Control Input Voltage $^{(2)}$ | 0 | $\mathrm{~V}_{\mathrm{CC}}$ | $\mathrm{V}_{\mathrm{CC}}$ |
| $\mathrm{V}_{\mathrm{SW}}$ | Switch Input Voltage | 0 | $\mathrm{~V}_{\mathrm{CC}}$ | $\mathrm{V}_{\mathrm{CC}}$ |
| $\mathrm{T}_{\mathrm{A}}$ | Operating Temperature | -40 | +85 | ${ }^{\circ} \mathrm{C}$ |

## Note:

2. Unused inputs must be held HIGH or LOW. They may not float.

## DC Electrical Characteristics

Unless otherwise specified, typical values are at $+25^{\circ} \mathrm{C}$.

|  |  |  | 5.5 |  | 0.1 | 0.5 |  | 1.0 |  |  |

## Notes:

3. On resistance is determined by the voltage drop between $D$ and $D n$ pins at the indicated current through the switch.
4. $\quad \Delta R_{\mathrm{ON}}=R_{\mathrm{ON} \max }-R_{\mathrm{ON} \min }$ measured at identical $\mathrm{V}_{\mathrm{CC}}$, temperature, and voltage.
5. Flatness is defined as the difference between the maximum and minimum value of on resistance over the specified range of conditions.

## AC Electrical Characteristics

## DISCLAIMER

FAIRCHILD SEMICONDUCTOR RESERVES THE RGHT TO MAKE CHANGES WTHOUT FURTHER NOTCE TO ANY PRODUCTS HEREIN TO IMPROVE RELIABILTY, FUNCTION, OR DESIGN. FAIRCHILDDOES NOT ASSUME ANY LIABILITY ARISING OUT OF THEAPPUCATION ORUSE OF ANY PRODUCT OR CIRCUIT DESCRIBED HEREIN; NEITHER DOES IT CONVEY ANY LICENSE UNDER ITS PATENTRIGHTS, NOR THE RIGHTS OF OTHERS. THESE SPEGFICATONS DO NOT EXPAND THE TERMS OF FAIRCHID'S WORLDMDE TERMSAND CONDITIONS, SPECIFICALLY THE WARRANTY THEREIN, WHICH COVERS THESE PRODUCTS

## LIFE SUPPORT POLICY

FAIRCHILD'S PRODUCTS ARE NOT AUTHORIZED FOR USE AS CRITICAL COMPONENTS IN LIFE SUPPORT DEVICES OR SYSTEMS MTHOUT THE EXPRESS WRITTEN APPROVAL OF FAIRCHILD SEMICONDUCTOR CORPORATION.

## As used herein

1. Life support devices or systems are devices or systems which, (a) are intended for surgical implant into the body or (b) support or sustain life, and (c) whose failure to perform when properly used in accordance with instructions for use provided in the labeling, can be reasonably expected to result in a significant injury of the user.
2. A critical component in any component of a life support, device, or system whose failure to perform can be reasonably expected to cause the failure of the life support device or system, or to affect its safety or effectiveness.

## ANTI-COUNTERFEITING POLICY

Fairchild Semiconductor Corporation's Antr-Counterfeiting Policy. Fairchild's Anti-Counterfeiting Policy is also stated on our extemal website, whw.fairchildsemi.com, under Sales Support.
Counterfeiting of semiconductor parts is a growing problem in the industry. All manufacturers of semiconductor products are experiencing counterfeiting of their parts. Customers who inadvertently purchase counterfeit parts experience many problems such as loss of brand reputation, substandard performance, failed applications, and increased cost of production and manufacturing delays. Fairchild is taking strong measures to protect ourselves and our customers from the proliferation of counterfeit parts. Fairchild strongly encourages customers to purchase Fairchild parts either directly from Fairchild or from Authorized Fairchild Distributors who are listed by country on our neb page cited above. Products customers buy either from Fairchild diredtly or from Authorized Fairchild Distributors are genuine parts, have full traceability, meet Fairchild's quality standards for handling and storage and provide access to Fairchild's full range of up-to-date technical and product information. Fairchild and our Authorized Distributors will stand behind all warranties and will appropriately address any warranty issues that may arise. Fairchild will not provide any warranty coverage or other assistance for parts bought from Unauthorized Sources. Fairchild is committed to combat this global problem and encourage our customers to do their part in stopping this practioe by buying direct or from authorized distributors.

## PRODUCT STA TUS DEFINITIONS

Definition of Terms

| Datasheet Identification | Product Status | $\quad$ Definition |
| :--- | :--- | :--- |
| Advance Information | Formative / In Design | Datasheet contains the design specifications for product development. Specifications may change in <br> any manner without notice. |
| Preliminary | First Production | Datasheet contains preliminary data; supplementary data will be published at a later date. Fairchild <br> Semiconductor reserves the right to make changes at any time without notice to improve design. |
| No Identification Needed | Full Production | Datasheet contains final specifications. Fairchild Semiconductor reserves the right to make changes <br> at any time without notice to improve the design. |
| Obsolete | Not In Production | Datasheet contains specifications on a product that is discontinued by Fairchild Semiconductor. <br> The datasheet is for reference information only. |

#### Abstract

ON Semiconductor and ON are trademarks of Semiconductor Components Industries, LLC dba ON Semiconductor or its subsidiaries in the United States and/or other countries. ON Semiconductor owns the rights to a number of patents, trademarks, copyrights, trade secrets, and other intellectual property. A listing of ON Semiconductor's product/patent coverage may be accessed at www.onsemi.com/site/pdf/Patent-Marking.pdf. ON Semiconductor reserves the right to make changes without further notice to any products herein. ON Semiconductor makes no warranty, representation or guarantee regarding the suitability of its products for any particular purpose, nor does ON Semiconductor assume any liability arising out of the application or use of any product or circuit, and specifically disclaims any and all liability, including without limitation special, consequential or incidental damages. Buyer is responsible for its products and applications using ON Semiconductor products, including compliance with all laws, regulations and safety requirements or standards, regardless of any support or applications information provided by ON Semiconductor. "Typical" parameters which may be provided in ON Semiconductor data sheets and/or specifications can and do vary in different applications and actual performance may vary over time. All operating parameters, including "Typicals" must be validated for each customer application by customer's technical experts. ON Semiconductor does not convey any license under its patent rights nor the rights of others. ON Semiconductor products are not designed, intended, or authorized for use as a critical component in life support systems or any FDA Class 3 medical devices or medical devices with a same or similar classification in a foreign jurisdiction or any devices intended for implantation in the human body. Should Buyer purchase or use ON Semiconductor products for any such unintended or unauthorized application, Buyer shall indemnify and hold ON Semiconductor and its officers, employees, subsidiaries, affiliates, and distributors harmless against all claims, costs, damages, and expenses, and reasonable attorney fees arising out of, directly or indirectly, any claim of personal injury or death associated with such unintended or unauthorized use, even if such claim alleges that ON Semiconductor was negligent regarding the design or manufacture of the part. ON Semiconductor is an Equal Opportunity/Affirmative Action Employer. This literature is subject to all applicable copyright laws and is not for resale in any manner.
