AV In-Wall Boxes

PANDUIT®
SPECIFICATION SHEET

specifications

AV In-wall boxes are steel storage boxes that are intended to be mounted behind monitors or screens to house active equipment and manage cables in a variety of settings. A full grid pattern maximizes equipment and cable management configurations. A standard outlet knockout and bezel for passing cables shall be available. In wall box finish shall be pure color and will resist scratches and dents and will not corrode. The AV in wall box shall be available in two standard sizes and shall be optimized for use with the Panduit Audio Video system.

key features and benefits

Equipment Storage	The in-wall box is an ideal size for storage of HDBaseT receivers, AV over IP decoders, media boxes, and cable boxes
1" grid pattern	Full grid pattern for unlimited configurations for cables and equipment
Cable Management	Included push mount cable ties help organize and store multiple cable types
Power knockout	Standard outlet knockout
Easy to mount	Installs easily between any standard metal or wooden studs and can be mounted with bezel and power knockout either facing up or down

applications

The AV in-wall box is a storage and cable management solution that is intended to be mounted behind a television monitor or projection screen. The in-wall box can be used in any application requiring storage or power placement for active components. It is ideal for digital signage, conference rooms, classrooms, and any application with a monitor.With two sizes available, the in-wall box can fit behind a variety of screens and monitors.
