

HN Male to HN Male Adapter

RF Adapters Technical Data Sheet

PE9210

Configuration

- HN Male Connector 1
- HN Male Connector 2
- 50 Ohm
- Straight Body Geometry

Features

- Max VSWR of 1.4:1 up to 3 GHz
- HN interface compliant with MIL-STD-348A
- 30 μ -in minimum contact plating
- Gold Plated Brass Contact

Applications

- General Purpose Test

Description

Pasternack's PE9210 HN male to HN male adapter is part of our full line of RF components available for same-day shipping. Our HN to HN adapter has a male to male gender configuration. PE9210 HN male to HN male adapter operates to 3 GHz. The Pasternack RF adapter provides good VSWR of 1.4:1 maximum.

RF adapters are often used to enable connections between two connector types that would otherwise not mate. Certain adapter configurations can also be used to protect connectors on expensive equipment where the number of connect/disconnect cycles is high. An RF, microwave or millimeter wave adapter is connected to the equipment, and the commonly changed connection is made with the adapter which can be easily replaced when it wears out after high usage; such adapters are referred to as connector savers. Pasternack also offers bulkhead, panel mount, hermetically sealed, reverse polarity, and isolated ground adapter varieties to serve all of your RF, microwave and millimeter wave needs.

Electrical Specifications

Description	Minimum	Typical	Maximum	Units
Frequency Range	DC		3	GHz
VSWR			1.4:1	
Operating Voltage (AC)			1,500	Vrms

Electrical Specification Notes:
Values at 25°C, sea level.

Mechanical Specifications

Size	
Length	2 in [50.8 mm]
Width	0.866 in [22 mm]
Weight	0.173 lbs [78.47 g]
