Cable connector, SPEEDCON locking, M23, number of positions: 5+PE, type of contact: Socket, shielded: yes, cable diameter range: 7.5 mm ... 18 mm, number of positions: 6, connection method: Crimp connection

The figure shows the 4+3+PE version

#### Your advantages

- ☑ Consistent EMC protection for reliable connection solutions in the industrial environment
- Flexible use: reliably connect cable diameters of 7.5 mm ... 18 mm
- Molded designs with pre-assembled cables on one or both sides

#### **Key Commercial Data**

Packing unit	1 pc
GTIN	4 0 4 6 3 5 6 5 8 4 4 1 8
GTIN	4046356584418

#### Technical data

#### General

Note	Order information: Order crimp contacts 6 x Ø 2 mm separately
Type of locking	SPEEDCON locking
Coding	N
Contact connection method	Crimp connection
Type of contacts	Socket
Number of positions	6
Contact diameter of power contacts	2 mm
Rated current for power contacts	30 A
Contact diameter of signal contacts	2 mm
Nominal current per signal contact	30 A
Conductor entry	7.5 mm 18 mm

### Technical data

#### Ambient conditions

Ambient temperature	-40 °C 125 °C
Degree of protection	IP67

### Specifications according to DIN EN 61984:2001

Installation height max.	3000 m
Nominal / operating voltage of power contacts	630 V
Rated surge voltage of power contacts	6 kV
Overvoltage category of power contacts	III
Degree of pollution of power contacts	3
Nominal / operating voltage of signal contacts	630 V
Rated surge voltage of signal contacts	6 kV
Overvoltage category of signal contacts	III
Degree of pollution of signal contacts	3

#### Standards and Regulations

The products are suitable for applications in plant, controller, and electrical device engineering.  When operating the connectors in outdoor applications, they must be separately protected against environmental influences.  Assembled products may not be manipulated or improperly opened.  Only use mating connectors that are specified in the technical data of the standards listed (e.g. the ones listed in the product accessories online at phoenixcontact.com/products).  When using the product in direct connection with third-party manufacturers, the user is responsible.  For operating voltages > 50 V AC, conductive connector housings must be grounded  Ensure that the protective or functional ground has been properly connected.  VDE 0100/1.97 § 411.1.3.2 and DIN EN 60 204/11.98 § 14.1.3 are applicable when combining several circuits in a cable and/or connector  Only use tools recommended by Phoenix Contact	Standards and Regulations	
products must be regularly inspected for damage. Decommission defective products immediately. Replace damaged products. Repairs are not possible.  **WARNING: Only electrically qualified personnel may install and operate the product. They must observe the following safety notes. The qualified personnel must be familiar with the basics of electrical engineering. They must be able to recognize and prevent danger. The relevant symbol on the packaging indicates that only personnel familiar with electrical engineering are allowed to install and operate the product. ### Technical data

#### Standards and Regulations

Ensure that when laying the cable, the tensile load on the connectors does not exceed the upper limit specified in the standards.
Observe the minimum bending radius of the cable. Lay the cable without twisting it.
• The connector warms up in normal operation. Depending on the ambient conditions, the surface of the connector can continue to warm up. In this case, the user is responsible for posting warnings (e.g. DIN EN ISO 13732-1:2008-12).

### **Environmental Product Compliance**
