

## Cable gland - VC-K-KV-PG16 2X8 - 1885266

Please be informed that the data shown in this PDF Document is generated from our Online Catalog. Please find the complete data in the user's documentation. Our General Terms of Use for Downloads are valid (http://phoenixcontact.com/download)

Half screw connection Pg16, made of plastic, consisting of rubber seal with several holes (2 x 8 mm) and one pressure screw, for type 1 housings

### Key Commercial Data

Packing unit	5 рс
Minimum order quantity	5 рс
GTIN	4 017918 176358
GTIN	4017918176358

### Technical data

#### Standards and Regulations

Safety note	WARNING: The connectors may not be plugged in or disconnected under load. Ignoring the warning or improper use may damage persons and/or property.
	• WARNING: Commission properly functioning products only. The products must be regularly inspected for damage. Decommission defective products immediately. Replace damaged products. Repairs are not possible.
	• WARNING: Only electrically qualified personnel may install and operate the product. They must observe the following safety notes. The qualified personnel must be familiar with the basics of electrical engineering. They must be able to recognize and prevent danger. The relevant symbol on the packaging indicates that only personnel familiar with electrical engineering are allowed to install and operate the product.
	• The products are suitable for applications in plant, controller, and electrical device engineering.
	When operating the connectors in outdoor applications, they must be separately protected against environmental influences.
	Assembled products may not be manipulated or improperly opened.

# Cable gland - VC-K-KV-PG16 2X8 - 1885266

## Technical data

### Standards and Regulations

• Only use mating connectors that are specified in the technical data of the standards listed (e.g. the ones listed in the product accessories online at phoenixcontact.com/products).         • When using the product in direct connection with third-party manufacturers, the user is responsible.         • For operating voltages > 50 V AC, conductive connector housings must be grounded         • Ensure that the protective or functional ground has been properly connected.         • VDE 0100/1.97 § 411.1.3.2 and DIN EN 60 204/11.98 § 14.1.3 are applicable when combining several circuits in a cable and/or connector         • Observe the corresponding technical data. You will find information: o On the product on the supplied documentation on On the product         • Only use tools recommended by Phoenix Contact         • The installation notes/Design In documents online on the download page at phoenixcontact.com/products must be observed for this product.         • Use a protective cap to protect or stat are not in use. The sutable accessories are available online in the accessory section of this product at phoenixcontact.com/products must be observed for this product.         • Use a protective cap to protect connectors that are not in use. The sutable accessories are available online in the accessory section of the product at phoenixcontact.com/products         • Use a protective cap to protect connectors that are not in use. The sutable accessories are available online in the standards.         • Operate the connector only when it is fully plugged in.         • Ensure that when laying the cable, the tensile load on the connectors does not exceed the upper limit specified in the
