***NOTE:** Parts are to be ordered to the military number, the Positronic part number is for reference only.

➤The above Positronic crimp contacts are qualified to SAE AS 39029.

‡Positronic is qualified to supply the legacy design as well as the PosiBand design. If the requirement is for the PosiBand design exclusively, notify sales at time of quotation or order placement when requesting M39029 contacts.

➤Positronic crimp contacts are Q.P.L. approved to SAE AS 39029.

+MIL approval for the use of PosiBand® contact system is in process for the above listed contacts. Until approval is granted Positronic M39029 contacts will utilize the previous closed entry design.

❖The PosiBand® contact system has many advantages over the legacy split tine design.

- ✗ **PosiBand** is more robust than the split tine contact, which can be pried open in harsh environments, resulting in reduced normal force and degradation of electrical performance.
- ✗ **PosiBand** has greater surface area at the male and female contact interface, resulting in more consistent electrical performance.
- ✗ **PosiBand** has lower average insertion forces, resulting in greater ease in mating, especially in larger high density connectors. The average lower insertion force is accomplished while meeting or exceeding performance requirements.
- ✗ **PosiBand's** contact body does not require annealing of the crimp barrels, as does the split tine design. This eliminates concern of unintentionally heat-treating the mating end of the contact, which can cause electrical failure.
- ✗ **PosiBand** is qualified under **SAE AS39029** specification. **PosiBand** is also qualified under **GSFC S-311-P4/08 Rev C** and **GSFC S-311-P4/10 Rev C**.

For more details about the **advantages of the PosiBand®** system, please view the detailed white paper at www.connectpositronic.com/content/37/ or visit our web site at www.connectpositronic.com.

*Positronic PosiBand® design is qualified under SAE AS39029. Positronic legacy design is also qualified under SAE AS39029. If the requirement is for the PosiBand design exclusively, notify sales at time of quotation or order placement when requesting M39029 contacts.
