

**MicroSpeeder with reverse lever and 15° offset ring side.**

## **7-piece MicroSpeeder set with reverse lever.**

**No swapping over: a real time saver! Extra long design.**

The 72-teeth inner ring gear made of special high alloy steel allows ratcheting even when the spanner can only be moved through 5°. Nevertheless, the torque transmission capacity far exceeds the DIN/ISO standards. CrV steel shaft with optimum surface protection: double nickel-plating and single matt-finished chrome-plating. Socket sizes easy to read due to laser marking!

As the 15° offset ring makes turning over of the spanner impossible, the spanner offers a reverse lever. Its design makes it ideally suited for working on flat surfaces.

One each 8 - 10 - 13 - 16 - 17 - 18 and 19mm in a sturdy powder coated steel box.

**NO 23 124**

For full professional use!

A very slim head provides shelter to the fully encapsulated drive.

Compact design allows for minimal outer dimensions (A+B).

With its 15° offset ring side, it is ideally suited for working on flat surfaces.
