

**Workshop special set: With forged, short tubular hexagon box spanners and externally gripping ratchet.**

## 14-piece special set 13 to 27mm.

**Ideal when working on steering gears and torsion bars (mostly 17 and 19mm) as well as shock absorbers (22mm) and alternator/fan belt pulleys (24mm).**

With reversible ratchet, TPR (thermoplastic rubber) grip, 55mm extension (open construction as well) and adapter with 1/2" square (12.5mm). In robust steel box (powder coated) with strong plastic tray.

**NO 23 604**

Fitting shock absorbers usually requires a 22mm socket.

The pulley on an alternator will usually have a 24mm nut.

The solution to your problem: Open ratchets and sockets allow bolts and studs to protrude.

The Driver-System: The driving force is applied to the flanks, not the corners.

**2 YEAR  
GUARANTEE!**

For full  
professional use!

Sockets and drive elements  
carry an additional  
**25 year guarantee**  
against faulty material  
and workmanship.
