

Qoltec Solar tool kit compatible with MC4 connectors | Crimping tool + Auto wire stripper

Product code: 52610

A set of solid solar tools compatible with MC4 connectors, as well as the wiring used in photovoltaics. The set is designed to carry out all the necessary work involved in setting up a photovoltaic installation, e.g. installation of solar connectors, cables and connectors.

IDEAL FOR PV PROFESSIONALS AND BEGINNERS

The practical solar tool storage case is sure to **make it easier to carry your tools when assembling your solar installation and protect them from accidental and lost mechanical damage** . All tools are compatible with MC4 connectors, allowing you to carry out all the **work involved in assembling solar connectors and connecting wires to the photovoltaic installation** . You will already be able to easily strip insulation from wires or cut cables and wires of different diameters.

EVERYTHING YOU NEED TO CONNECT YOUR SOLAR PANELS

Qoltec brand tools meet the highest standards of product quality and safety of use and the quality of the product influences the efficiency, accuracy and precision of the work performed .

The tool set includes:

- MC4 connector crimper
- Auto wire stripper
- Set of spanners for MC4 connectors
- Connectors type MC4
- Practical storage case

CRIMPING TOOL FOR MC4 CONNECTORS AND 2,5-6,0MM CABLES

The practical crimping tool will allow the efficient and safe crimping of male and female solar connectors of type MC4. The crimper operates on the ratchet principle, has an automatic locking device and three working sockets for wires of 2.5 mm, 4.0 mm and 6.0 mm. The product is characterised by its robust construction made of high hardness steel and convenience of use. **Material:** tool steel **Weight:** 0.440kg **Dimensions:** 210 x 70 x 20 mm

AUTO WIRE STRIPPER

The auto wire stripper is a very handy tool designed for stripping insulation from single conductors with diameters: 0.5 - 6 mm (24-10 AWG) or strands of multi-conductor cables, automatic adjustment to cable cross-section. It has a rebound spring, which greatly relieves the hand and makes the work easier. The main functions of this tool are stripping insulation, crimping wires and precise cutting. **Material:** Tool steel + plastic **Weight:** 0.320kg **Dimensions:** 205 x 100 x 35 mm

MC4 SOLAR CONNECTOR - FAST AND SAFE CONNECTION OF PV PANELS

Qoltec brand connectors are used to connect PV panels in photovoltaic installations, using suitable solar cables. The connectors guarantee a tight clamping of the cable, robust construction and high mechanical resistance, the connectors are sure to last for many years. Material: PC + tin-plated copper Weight: 0.010kg Dimensions: 65 x 20 x 17 mm

SPANNERS FOR MC4 PHOTOVOLTAIC CONNECTORS

The set contains a set of 2 spanners for the quick assembly and disassembly of solar connectors, i.e. MC4 male and female connectors. The product is characterised by high mechanical resistance, strength and lightweight construction. Material: Polipropylene Weight: 0.025kg Dimensions: 120 x 38 x 5 mm

CONFIDENCE CONFIRMED BY A WARRANTY

Do you care about the high quality of the product you are buying? Our solutions will meet your expectations. The product comes with a **24-month** guarantee valid from the date of purchase.

TECHNICAL DATA

Producer	Qoltec
Type	Solar tool kit
Package contents	1 x Crimping tool for MC4 connectors 2 x Connectors type MC4 1 x Auto wire stripper 2 x MC4 Solar connector wrench 1 x Practical tool storage case
Usage	Installation of photovoltaic systems Installation of connectors, connection of solar cables
Dimensions (D/L x W x H)	145 x 290 x 55 mm
Package depth / length [mm]	150
Package width [mm]	300
Package height [mm]	60
Net weight [kg]	1.106
Gross weight [kg]	1.108
Certificate	CE
Warranty	24 month
EAN code	5901878526102
