

## Features

- Long 5 year warranty
- 2MOPP/250VAC
- Suitable for built in Class II applications
- Wide input voltage range (85-264VAC)
- Low leakage current (<100µA)
- 5000m operation
- Active power factor correction

## Regulated Converter

## RACM150

**150 Watt  
Enclosed  
Case Style  
Single Output**

### Description

The RACM150-S(/F) is a compact 4" x 2" high efficiency AC/DC power supply with 2xMOPP safety approval for medical applications. These space saving enclosed power supplies have a universal input voltage range (85-264VAC), 4kVac isolation, require no minimum load and can be used at ambient temperatures of between -25°C and +80°C. The 12V, 15V, 24V or 48V output voltages are fully protected and have tolerances of less than ±0.2% over the entire input voltage range and less than ±0.5% over the entire load range. The RACM150-S(/F) series is certified to medical safety standard IEC/ES/EN-60601-1 3rd Edition and with less than 100µA leakage current. It has a built-in Class B EMI filter and comes with a five year warranty.

### Selection Guide

| Part Number                  | Input Voltage Range [VAC] | Output Voltage [VDC] | Output Current [A] 115/230VAC | Efficiency typ. [%] | max. cont. Power Rating [W] 115/230VAC | Max. Cap. Load <sup>(1)</sup> [µF] |
|------------------------------|---------------------------|----------------------|-------------------------------|---------------------|--|------------------------------------|
| RACM150-12S                  | 85-264                    | 12                   | 10.0 / 10.84                  | 91                  | 120 / 130                              | 10400                              |
| RACM150-15S                  | 85-264                    | 15                   | 8.33 / 9.0                    | 92                  | 125 / 135                              | 6600                               |
| RACM150-24S                  | 85-264                    | 24                   | 5.2 / 5.63                    | 92                  | 125 / 135                              | 2600                               |
| RACM150-48S                  | 85-264                    | 48                   | 2.5 / 2.71                    | 91                  | 120 / 130                              | 650                                |

**Notes:**

Note1: Max Cap Load is tested at minimum input and full resistive load

### Model Numbering

**Notes:**

Note2: with suffix "/F" = mounted fan (Please note that removing the fan from the /F version will not give the same performance as the equivalent fanless type. The two versions are not identical) without suffix, without fan

**Examples:**

- RACM150-12S = 12Vout, without fan
- RACM150-24S/F = 24Vout, with fan

| Fast Transient and Burst Immunity  | DC Port: ±2kV  | IEC61000-4-4:2012, Criteria A                                    |
| Surge Immunity   | DC Port: ±1kV  | IEC61000-4-5:2014, Criteria A                                    |
| Immunity to conducted disturbances, induced by radio-frequency fields  | DC Power Port 3V + 20V   | IEC61000-4-6:2013, Criteria A                                    |
| Power Frequency Magnetic Field   | 50Hz/60Hz 1A/m<br>50Hz/60Hz 10A/m  | IEC61000-4-8:2009, Criteria A                                    |
| Voltage Dips and Interruptions   | Dips: >95%; 60%; 30%<br>Interruptions >95%                                     | IEC61000-4-11:2004, Criteria A<br>IEC61000-4-11:2004, Criteria B |
| Limits of Harmonic Current Emissions   |  | EN61000-3-2:2014, Class D  |
| Limits of Voltage Fluctuations and Flicker   |  | EN61000-3-3:2013   |

**DIMENSION and PHYSICAL CHARACTERISTICS**

| Parameter         | Type        | Value                 |
|-------------------|-------------|-----------------------|
| Material          | enclosed    | aluminum              |
| Dimension (LxWxH) | with Fan    | 116.8 x 62.0 x 49.2mm |
|                   | without Fan | 116.8 x 62.0 x 39.2mm |
| Weight            | with Fan    | 270g                  |
|                   | without Fan | 255g                  |

Specifications (measured @ Ta= 25°C, 230VAC, full load and after warm-up)

Dimension Drawing without FAN (mm)

AC Input Side

DC/FAN Output Side

**AC Input Connector CON1**

**Pin1** Line

**Pin3** Neutral

Mates with

JST housing: VHR-3N

JST crimp terminals: SVH-21T-P1.1

**DC Output Connector CON2**

**Pin1,2,3** -Vout

**Pin4,5,6** +Vout

Mates with

JST housing: VHR-6N

JST crimp terminals: SVH-21T-P1.1

**FAN Output Connector CON3**

**Pin1** -Fan

**Pin2** +Fan

Mates with

Molex housing: 22-01-1022

Molex crimp terminals: 2759

Tolerance: ±0.5mm

FC: fixing center

Recommended tightening torque for mounting holes= 0.49Nm

Specifications (measured @ Ta= 25°C, 230VAC, full load and after warm-up)

| Parameter                   | Type           | Value                   |
|-----------------------------|----------------|-------------------------|
| Packaging Dimension (LxWxH) | cardboard Box  | 418.0 x 308.0 x 105.0mm |
| Packaging Quantity          |                | 10pcs                   |
| Storage Temperature Range   |                | -40°C to +80°C          |
| Storage Humidity            | non-condensing | 5% to 95% RH            |

The product information and specifications may be subject to changes even without prior written notice. The product has been designed for various applications; its suitability lies in the responsibility of each customer. The products are not authorized for use in safety-critical applications without RECOM's explicit written consent. A safety-critical application is an application where a failure may reasonably be expected to endanger or cause loss of life, inflict bodily harm or damage property. The applicant shall indemnify and hold harmless RECOM, its affiliated companies and its representatives against any damage claims in connection with the unauthorized use of RECOM products in such safety-critical applications.

## X-ON Electronics

Largest Supplier of Electrical and Electronic Components
