A small, vertically oriented table with approximately 10 columns and 15 rows. The text within the table is extremely small and illegible. The table appears to be a data table or a small grid, possibly containing numerical or categorical data. It is centered on the page and has a thin border.

The image shows a small, low-resolution thumbnail of a table. The table has approximately 10 columns and 15 rows. The first column appears to contain numerical values, while the other columns contain text. The table is centered on a white background.

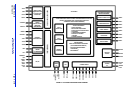

The image shows a small, low-resolution screenshot of a software interface, likely a spreadsheet or data management tool. The interface is centered on a white background. It features a header section with some text and a main area containing a grid of data. The grid has several columns and rows, with some cells containing text and others appearing to be empty or containing small icons. The overall appearance is that of a standard data entry or reporting application.

The image shows a small, low-resolution screenshot of a data table. It appears to be a spreadsheet or a database view with multiple columns and rows. The text is too small to read, but the layout suggests a structured data format. There are some blue highlights, possibly indicating a selected row or column.
