

RoHS Compliance This component is compliant with RoHS directive. This component was always RoHS compliant from the first date of manufacture

SF2419E

495 MHz **SAW Filter**

Surface Mount 3.0 x 3.0 mm Package

Absolute Maximum Ratings

Rating	Value	Units
Input Power Level	10	dBm
DC Voltage	3	V
Operable Temperature Range	-45 to +125	°C
Specification Temperature Range	-40 to +85	°C
Storage Temperature Range in Tape and Reel	-40 to +85	°C

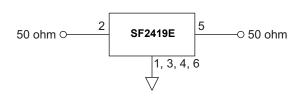

Electrical Characteristics

Electrical Connections

Connection	Terminals
Input	2
Output	5
Case Ground	All others

Reel Size 13 Inch

3000 Pieces/Reel

CAUTION: Electrostatic Sensitive Device. Observe precautions for handling. NOTES:

- Unless noted otherwise, all specifications apply over the operating temperature range with filter soldered to the specified demonstration board with impedance matching to 50 Ω and measured with 50 Ω network analyzer. 1. Unless noted otherwise, all frequency specifications are referenced to the nominal center frequency, fc.
- Rejection is measured as attenuation below the minimum IL point in the passband. Rejection in final user application is dependent on PCB layout and external

impedance matching design. See Application Note No. 42 for details.

"LRIP" or "L" after the part number indicates "low rate initial production" and "ENG" or "E" indicates "engineering prototypes."

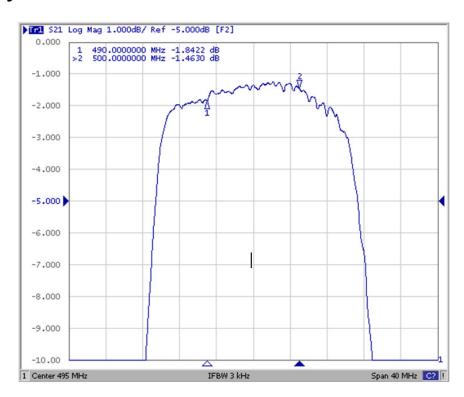

The design, manufacturing process, and specifications of this filter are subject to change.

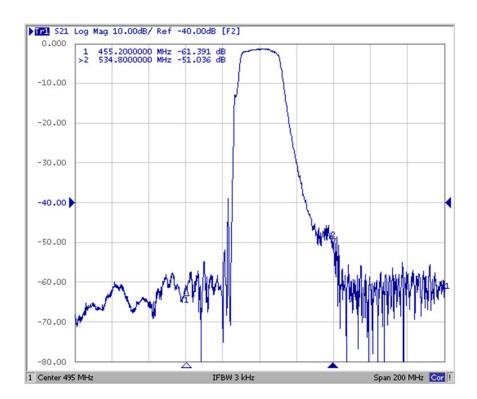

Either Port 1 or Port 2 may be used for either input or output in the design. However, impedances and impedance matching may vary between Port 1 and Port 2, so that the filter must always be installed in one direction per the circuit design. 5. 6.

US and international patents may apply.
