

Two-color chip LEDs with reflectors

SML-020 Series

The SML-020 series are two-color, high luminance chip LEDs with reflectors. Two-color chips are built into a single package. These LEDs are compact and leadless to allow a high mounting density.

●Features

- 1) Reflectors are used to achieve a high luminance.
- 2) Two-color emission, rectangular and leadless (3×2.5 mm).
- 3) Can be mounted by automatic mounting.
- 4) Available on tape
