06 Subracks / 19" chassis

SCHROFF GMBH, LANGENALBER STRASSE 96-100, D-75334 STRAUBENHARDT WWW.PENTAIREQUIPMENTPROTECTION.COM

39601-641 © 2012 Pentair Equipment Protection

Subracks/19" chassis

europac PRO

19" subrack with high flexibility
in accordance with IEC 60297-3-103 and IEEE 1101.10/11

For different applications:

- Kits, individual configuration and an extensive accessory range
- Industrial applications
- Shock and vibration resistance up to 5 g, e.g. for mobile railway applications
- Shock and vibration resistance up to 25 g for rugged environments, e.g. mobile military applications

Subracks - **europacPRO**

- europacPRO standard**
- 19" subrack with high flexibility
 - EMC shielding upgradable
 - In accordance with IEC 60297-3-103 and IEEE 1101.10/11
 - Kit from stock or individual configuration

europacPRO for mobile railway applications

- Over and above the europacPRO standard range additional shock and vibration properties for up to 5 g in accordance with the standards:
 - IEC 61587-1, EN 50155
 - BN 411002 and BN 411003
 - NF F 61-005 / NF F 60-002

36112001 06109001 06103001 06108006

europacPRO for industrial applications

- Over and above the europacPRO standard range additional kits for wall mounting or for installation of supply modules to DIN 43880

europacPRO for rugged applications

- Over and above the europacPRO standard range additional shock and vibration properties for up to 25 g in accordance with the standards: MIL 167, IEC 61587 DL 3, MIL 810 G, MIL 901

europacPRO accessories

- Extensive range of accessories for europacPRO products
- Side panels, horizontal rails, guide rails, cover plates, front/rear covers, handles and shielding components
- Interior assembly: combined mounting 6 or 2 x 3 U, horizontal board mounting, mounting plates, panel mounting, central locking, telescopic slides, divider plates, air deflectors, 19" module support and extensive fixing material kit

Subracks - *europacPRO* Introduction

Platform-based standard solutions for individual requirements

Practical technology without time-consuming assembly. The modular europacPRO product platform allows a wide range of possible applications with only a few components. The intelligent design of all components results in remarkably simple and fast management in assembly and components.

Two ways of reaching your desired product:

- Kits
- Individual configuration

Simple assembly with europacPRO kits:

06107001

Delivered in space-saving flat packs. The threaded inserts or EMC gasket (depending on selected kit) are already pre-mounted on the horizontal rail.

Individual configuration:

	Side panel type F	19" bracket without handle holes	19" bracket with handle holes	19" bracket depth-adjustable	EMC sealing (SI, stainless)	Rear angle	Side panel connection
	without 19" bracket, Al, 2 mm, passivated please order 19" bracket and corner profile separately	with lateral grooves for EMC stainless steel gasket, Al extrusion, rear side etched, front anodized	with lateral grooves for EMC stainless steel gasket, Al extrusion, rear side etched, front anodized, please order front handle separately, see page 6.25	2 adaptor brackets, Al, 2 mm, equipment support rail, height 35 mm, width 84 mm, depth 17.5 mm; mounted laterally in module support or subrack; power	inserted laterally into the slots of the front panel	Al extrusion, surface clear passivated, with lateral grooves for EMC stainless steel sealing; rear hood cannot be mounted simultaneously	Zn die-cast, hot assembly kit, for fitting two by two side panels (above one another)
Height U	Depth mm	1 piece	PU 1 pair	PU 1 pair	PU 10 pieces	PU 1 pair	PU 4 pieces

3	475	34560-195					

06109052

You design your subrack as you wish, then receive it fully assembled via our **ServicePLUS assembly service** (even for orders of just one). We can also carry out individual modifications and cut-outs; and when time is short can do so very fast via ServicePLUS express.

Horizontal rails and side panels for different load-carrying classes

Light

06197007

Heavy

06197008

Rugged

06112004

Horizontal rails are available for three load classes:

- "light" (load up to approx. 7.5 kg)
- "heavy" (load > 7.5 kg)
- "rugged" (load 15 kg)

Side panels for 4 different load classes

- Light: low-cost version with built-in 19" mounting bracket
- Flexible: with separate, depth-adjustable 19" mounting bracket
- Heavy: with integrated, tox-cold welded 19" mounting bracket, e.g. for shock and vibration environments up to 5 g
- Rugged: with integrated, tox-cold welded 19" mounting bracket and higher material thicknesses for extreme mechanical stresses, e.g. for increased shock and vibration environments up to 25 g
- The combination of the 3 horizontal rail variants with the 4 types of side panel results in an almost unlimited variety of potential applications for various market requirements

Type Light

Subracks - *europacPRO* Introduction

Guide rails from plastic and aluminium profiles

Guide rails form the interface between the subrack mechanics and the assemblies (boards, plug-in units, frame type plug-in units, drive unit modules, ...).

Robust snap-in fixings on the plastic rails assure a secure grip, even when exposed to vibrations. In the case of H and R-type horizontal rails the guide rails can also be bolted on. For extreme stresses, guide rails in aluminium extrusion are used.

To ensure that the wrong subassembly is not inserted into the wrong space we offer a mechanical coding to IEEE 1101.10/11 and IEC 60297-3-103.

The continuous numbering on the horizontal rail (from 28 HP) and the markings on the guide rails facilitate quick fitting in the correct position.

We offer the appropriate adaptors for accommodating VPX or CompactPCI boards with strengthening frame or conduction-cooled assemblies (CCA) installed in a subrack.

Electromagnetic shielding and ESD

The product platform *europacPRO* offers a variety of off-the-shelf solutions to assure electromagnetic compatibility (EMC) and to avoid electrostatic discharge (ESD).

Two shielding concepts It can't be more secure!

Two types of shielding concepts to front/rear of the subrack allow the use all Schroff frontpanels.

The shielding at the front of the subrack is by means of stainless steel or textile EMC gaskets.

ESD (electrostatic discharge)

To avoid electrostatic discharge when inserting PCBs, ESD contacts are clipped into the guide rails. These establish a conductive connection between PCB and subrack-earth. Under IEC 60297-3-101 two ESD areas are defined on the euroboard. The ESD clips of the guide rail of the *europacPRO* subrack allow the assembly of both following variants:

- ESD area (bottom and top) over the complete board length
- ESD area (bottom/top) begins at the front from 70 mm to end of board)

Subracks - *europac PRO*

06197001

06112014

Different horizontal rails for various applications

04602002

The IEEE handles and shielded front panels are designed for the construction of CompactPCI and VME64x subrack systems

06

Sequential numbering on horizontal rails (> 28 HP) and markings on the guide rails provide quick optical positioning aids. ESD clips can be used at front or rear, to protect electronics from electrostatic discharge

Standards/certifications

- Inner and outer dimensions meet:
IEC 60297-3-100, -101, -102, -103, -104, -105
IEEE 1101.1 and IEEE 1101.10/11
- Type of protection IP 20 to IEC 60529
- EMC testing to IEC 61587-3
- Shock and vibration test reports:
German "Bahn" standards BN 411002, BN 411003;
NF F 60002, NF F 67012
IEC 61587-2, EN 50155
- Nuclear plants KTA 1401

EMC curve

Downloads and further important information can be found on the Internet under www.schroff.biz

19" subracks

- Kits or individual configuration
- One product and accessories platform for every kind of customer requirement and application
- Suitable for CompactPCI and VME64x insertion and extractor handles
- EMC shielding can easily be retrofitted if needed
- Shock and vibration resistant up to 5 g
- 3D PDF or CAD 3D data available for download

06102008

Kits

- All required parts available under one order number, some pre-fitted
- Most popular dimensions and versions available from stock
- For installed loads up to 7.5 kg, up to 11 kg and up to 15 kg
- As unshielded or shielded version
- Supplied as space-saving flat-pack

06105058

ServicePLUS individual configuration

- Single parts may individually be configured, respectively assembled on request (from quantity 1)
- Very wide range of variants in height, width and depth
- Guide rails for different applications
- EMC shielding material to improve EMC performance
- Interior assembly options with mounting plate or combined mounting (3 + 6 U segments)
- Other accessories and assembly kits

30407004

D = overall depth, D1 = insertion depth, D2 = board depth

Rear horizontal rail for backplane mounting with insulation strip

ServicePLUS see page 6.16

Subracks - *europac PRO*

Kit, "heavy", shielded,
for backplane mounting

- Subrack with side panel type H ("heavy"), 19" bracket is firmly fixed to side panel (tox-cold welded)
- Rear horizontal rail for backplane mounting with insulation strip
- Shielding typically 40 dB at 1 GHz, 30 dB at 2 GHz, assuming that the front is closed with sealed front panels
- Shock and vibration resistance up to 5 g
- Installed load up to 15 kg
- Versions with/without front handles

NEW

Delivery comprises (Kit)

Item	Qty	Description	
	3 U	6 U	
1	2	2	Side panel type H, Al, 2 mm, passivated, with 19" support bracket (tox-cold welded); for textile EMC gasket

Part number in bold face type: ready for despatch within 2 working days
Part number in normal type: ready for despatch within 10 working days

6.15

configuration

Simple. Fast. To the ideal product.

Components can be varied and combined freely

- Configuration tables from page 6.17
- Online configuration: www.schroff.co.uk/configuration

assembly

Assembled by professionals. Double benefit!

Fitting of all mechanical, electrical and electronic components by our specialists

- Professional and reliable from quantity 1
- Ready for despatch within 5 working days

modification

Small changes. Large impact.

Custom drillings, cut-outs and special colours for off-the-shelf products

- Custom modifications from quantity 1
- Ready for despatch within 10 working days

solution

Simple. Fast. From one source.

Integration and custom developments

- Special sizes (depth and width)
- Individual heat dissipation concepts
- Ready for despatch within 10 working days

express

When fast has to be faster.

Delivery time to customer's request

- Express logistics

academy

Knowledge. Sharing. Partnerships.

Knowledge transfer and partnership

- Seminars, CAD drawings, test reports, user reports

Overview of individual components for shielded or unshielded subracks

06108086

Item	Description	Description	page
Item 1	Side panel	Establishes the height and depth of the subrack; Al, 2 mm, with universal hole positions for assembly of accessories. Three versions: The "flexible" one with separate 19" brackets as well as two others with integrated 19" brackets for "light" and "heavy" applications.	6.19
Item 2	Horizontal rail	Establishes the width of the subrack; Al extrusion, with defined hole positions for guide rails, grooves for threaded inserts, M4 thread, functional rail shapes, basically differing with regard to their mechanical loading capacity: "light" (load up to 7.5 kg) and "heavy" (load > 7.5 kg).	6.27
Item 3	Guide rails	Act as interface between subracks and boards, for different board formats, are available in plastic or metal, optionally codable and can be fitted with ESD clips to allow electrostatic discharge, also optionally.	6.35
Item 4	Cover plates	Provide mechanical protection and/or EMC shielding and are perforated.	6.42
Item 5	Rear/front	Rear hood (5a) or front panel (5b) with corner profile (5c) act as support for EMC shielding gaskets used in conjunction with shielded front panels. Note: Rear hood and corner profile cannot be fitted simultaneously.	6.47
Item 6	Handles	Can be mounted on the 19" brackets.	6.25
-	EMC shielding (without illustration)	Extensive component range for specific shielding of subracks with respect to their application.	6.52
-	Interior assemblies (without illustration)	Universal assemblies, e.g. for horizontal and vertical assembly and for mounting plates.	6.57

Subrack dimensions

20304051

- Dimensions in accordance with international standards EC 60297-3-100, IEEE 1101.1/.10/.11; please see the Schroff Standards Summary for details
- Side panels
 - Aluminium, 2 mm
 - Round holes for mounting horizontal rails (depth grid 15 mm)
 - Impressions on the inner side of the side panel act as an anti-rotation guard and positioning aid for the horizontal rails
 - Square holes (6 x 6 mm) provide universal fixing for components such as backplane shielding; version without square holes available on request

06103001

Depth grid

The depth grid is 15 mm, the mounting holes in the side panel are decisive for the configurability of individual components; thus any combination of various individual parts is possible

06108008

Side panel 3 U, 6 U and 9 U

3 and 6 U side panels have the same hole positions (the 6 U is a doubling vertically of the 3 U); thus subdivisions can be made in the vertical dimension (6 U: 2 x 3 U; 9 U: 3 x 3 U)

06108011

Side panel 4 U

4 U side panels have the same hole positions as 3 U and additionally 1 U (above or beneath the 3 U installation); this height allows the construction of a 3 U unit with 1 U clearance for cabling or airflow

Side panels

Side panel - horizontal rail assembly

- Aluminium
- Round holes for mounting horizontal rails (depth grid 15 mm)
- Impressions on the inner side of the side panel act as an anti-rotation guard and positioning aid for the horizontal rails
- Square holes (6 x 6 mm) provide universal fixing for components such as backplane shielding; version without square holes available on request
- Only one type of screw driver is needed for the assembly (torx panhead screw, M4 x 14; torque side panel - horizontal rail 2.4 Nm; torque side panel - cover plate 1.3 Nm)
- 4 versions of the side panel:
 - Type F = flexible
 - Type H = heavy
 - Type L = light
 - Type R = rugged

Note

- Type R - rugged side panels see "Rugged Subracks" section, page 6.97

Type F (flexible)

- Universal version: 19" bracket (please order separately) can be fitted variably to front, rear or depth-offset
- Heights: 3, 4, 6 and 9 U
Depths: 175, 235, 275, 277.75, 295, 355, 415 and 475 mm;
Other dimensions on request
- 2 EMC shielding concepts for the front/rear: stainless steel or textile EMC gasket
- Installed load up to 11 kg

Type H (heavy)

- 19" bracket is tox-cold welded to side panel; particularly designed for mechanically demanding environments (vibration resistance, applications requiring high levels of shock and vibration, e.g. IEC 61587-2)
- Heights: 3 and 6 U
Depths: 175, 235, 295 and 355 mm
Other dimensions on request
- 2 EMC shielding concepts for the front/rear: with stainless steel or textile EMC gasket
- Installed load up to 15 kg

Type L (light)

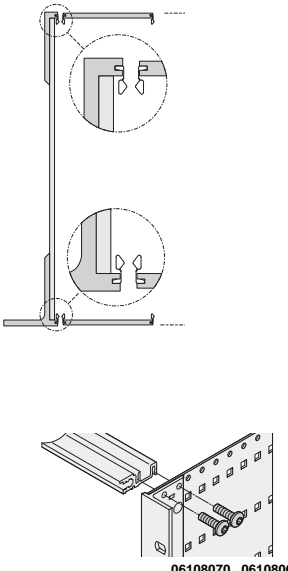

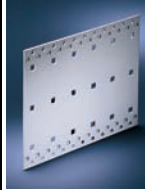

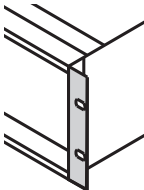

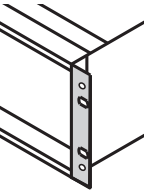

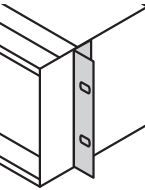

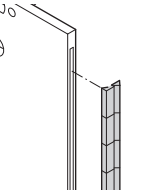

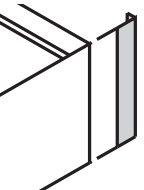

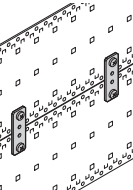

- Side panel with moulded 19" bracket, for standard applications, unshielded
- Particularly cost-effective version (not suitable for EMC applications)
- Heights: 3 and 6 U
Depths: 175, 235 and 295 mm
Other dimensions on request
- Installed load up to 7.5 kg

Horizontal rails

- Aluminium profile, surface anodised, conductive contact surfaces for EMC gaskets
- The horizontal rail is marked with sequential numbering (for sizes > 28 HP) to facilitate positioning of the guide rails
- Horizontal rails are fixed to the side panel using M4 bolts with torx 20 drive
- There are 3 different horizontal rails for different loading levels
 - light, for up to 7.5 kg
 - heavy, for 7.5 kg to 15 kg
 - rugged, for 15 kg to approx. 60 kg

Mounting position of the horizontal rails

Guide rails

Guide rails form the interface between the subrack mechanics and the sub-assemblies (PCBs, plug-in units, frame-type plug-in units, ...).

Guide rails for standard applications are 2 HP wide. Guide rails with coding (e.g. for CompactPCI or VME64bus applications) are 4 HP wide.

There are groove widths of 2 mm and 2.5 mm.

The guide rails are clipped into the rectangular cut-outs of the horizontal rails. They can additionally be bolted to the horizontal rail (type H only) for higher shock and vibration requirements.

The printed HP markings on the horizontal rail (28 HP and above) allow the rails to be fitted in the correct position easily (position of sub-assembly = "number in viewing window" or in front of the arrow marking on the guide rails).

Front view: position of guide rails to connector (EN 60603-2/
DIN 41612) 06108083

Applications for guide rails

For plug-in units and frame-type plug-in units (with front panels) (standard type)

For plug-in units and frame type plug-in units or for PCBs without their own front panel (accessory type or robust version)

For CompactPCI or VME64x plug-in units (type IEEE with coding; frame-type plug-in units cannot be fitted)

For plug-in drive unit modules or PCBs in 4.4" (111.7 mm) height (type 4.4")

Rugged guide rails to accommodate conduction cooled assembly (CCA) adaptor

Accessories:

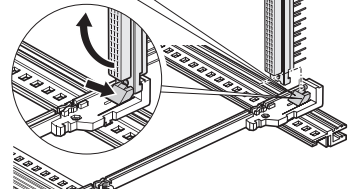

- ESD clip
- Keying/coding pegs
- Board locking

6	84	20848-604	20838-276	20848-617

Note

- Front panel can be removed in opened position (> 135°)

Shielding is required between the following components of a subrack

- Front panel/rear panel and horizontal rail, see page 6.53
- Front panel and 19" bracket/corner profile or in case of depth-offset installation, see page 6.53
- Cover plate/horizontal rail, see page 6.42
- Cover plate/side panel, see from page 6.42
- Horizontal rail/horizontal rail in combined mounting (3 U + 3 U and 6 U), see page 6.57
- Shielding for backplane and side panel see page 6.53

EMC shielding concepts

- Shielding concepts in accordance with IEEE and IEC
- Shielding effectiveness has been determined in various series of measurements in accordance with IEC 61587-3 and can be found online together with the relevant standard product
- The combined use of stainless steel and textile EMC gaskets is functionally possible without any problems

EMC shielding concept with EMC textile gaskets

- The seal is affixed to the left-hand side of the subrack (viewed from front) or to the front panel profile, respectively
- An EMC gasket with CuNi coating assures a long-term high level of shielding, typically 40 dB at 2 GHz
- Temperature-resistant adhesive layer is protected by a removable film
- Rear shielding is obtained using front panels or a rear hood
- Temperature range -40° C ... +70° C
- **Note:** rear hood and corner profile cannot be used simultaneously

EMC shielding concept with stainless steel EMC gaskets)

- Symmetrical arrangement of EMC gaskets on the left and right hand sides of subrack and front panel
- Shielding: typically 40 dB at 2 GHz
- Can be used for temperatures above +70° C
- **Note:** rear hood and corner profile cannot be used simultaneously

Front panel shielding concept

- Front panels are available for textile or stainless steel EMC gasket options
- Alignment pins are pressed-in in the front panel to position the gaskets securely and to compress them evenly
- An alignment pin positions the perforated strip in the horizontal rail
- Alignment pin and perforated strip provide an optimal positioning of the shielded assemblies; the front panels are not forced sideways by the shielding elements (Schroff patent)

EMC gaskets between horizontal rail and horizontal rail

Order Information

bpa46548

**Stainless steel EMC gasket
between horizontal rail and horizontal rail**

bz245877

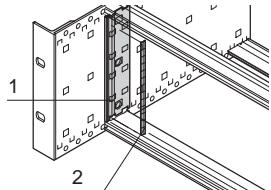

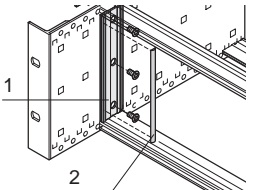

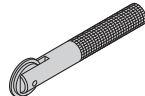

Item 1: cover strip, Al, 1 mm,
item 2: 2 x EMC seals (stainless steel);
for shielding of 2 horizontal rails positioned directly one above the other
if assembly area is divided vertically

EMC gaskets between backplane and side panel

Order Information

 <p>06108078</p>	<p>Stainless steel EMC gasket between backplane and side panel (depth-offset installation)</p>  <p>bp44916</p> <p>2 x support profile, Al extrusion, 2 x EMC gasket (stainless steel) Fixing materials kit and user manual; for vertical EMC shielding between shielded backplane and side panel;</p> <p>dimensions (84 HP): A = 425.8 mm, B < 429.9 mm, C = 429.8 mm, D = 431.8 mm</p> <p>PU 1 kit</p>
<p>Height</p>	
<p>U</p>	<p>24561-199</p>
<p>3</p>	<p>24561-499</p>
<p>6</p>	

- With an appropriate design the backplane can be used as shielding rear panel; for that purpose a rear horizontal rail (type L-VT or H-VT) for depth-offset installation must be used to ensure the horizontal contact
- For vertical contact the support profile can be fixed to the europacPRO side panel (depth grid 30 mm)

Special interior mounting parts

- Combined mounting: 3 U + 3 U and 6 U, see page 6.57
- Horizontal board mounting, see page 6.58
- Mounting plates, see page 6.59
- Central locking for PCBs, see page 6.60
- Divider plates, see page 6.60
- Air baffles, see page 6.61
- Telescopic slides, see page 6.62
- Fixing parts (bolts, nuts, assembly tools), see page 6.63

Assembly kit for fixing strips for partial width mounting plates Torx screw M2.5 x 5, St, zinc-plated, PU 100 pieces			—	—	24560-146

Note

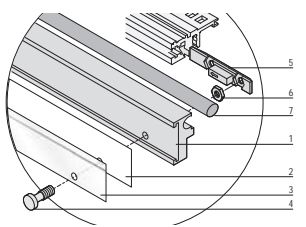

- For installation and fixing of heavy components
- In addition to the mounting plate, (EMC) cover plates can also be fitted to the subrack
- The mounting plate is as wide as the subrack or system case and is fixed to the side panels
- A guide rail can be fitted on the first and last slot
- Guide rails type "4.4" and type "strengthened" cannot be used

Central locking

Order Information

**Central locking
for PCBs without front panels**

Item 1: central rail, Al, anodised;
item 2: ID cardboard, white;
item 3: transparent cover strip, plastic;
item 4: 2 x knurled screw;
item 5: 2 x slide nut;
item 6: 2 x hexagon nut M2.5;
item 7: rubber gasket;

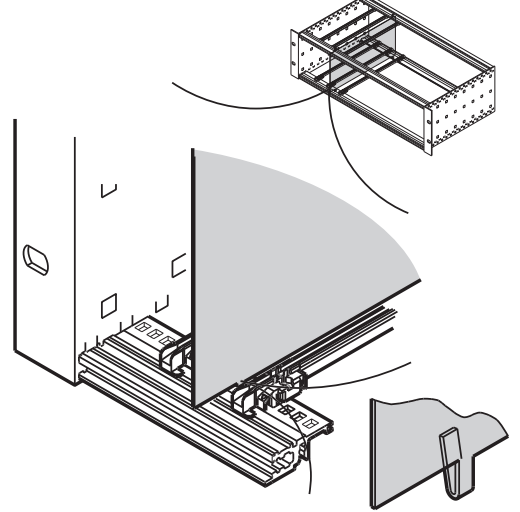

central locking allows joint locking of PCBs and serves as identification strip;
can be fitted to front and rear horizontal rails,
suitable for 84 HP width

bza45819

Width	Length				
HP	mm				
84	426.0			1 piece	24560-167

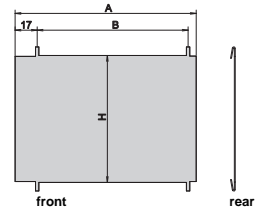

Divider plate

Order Information

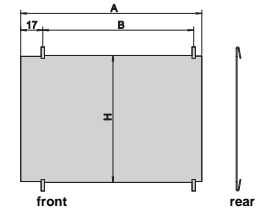

Divider plate

**Mounting position when
stainless steel EMC gasket is used**

**Mounting position when
textile EMC gasket is used**

Stainless steel, 1 mm, is mounted by clipping onto horizontal rail,
space requirement on component side 2 mm;
mounting direction varies with shielding design (EMC stainless steel or textile gasket);
retrofitting the divider plate in an already-assembled subrack/case
will first require dismantling of the horizontal rails;
where front panels are unshielded, both mounting directions are possible

Note

- Air baffle for 280 mm deep and for 80 mm rear I/O boards available on request

Simple telescopic slide for assembly of subracks in cabinets

- For mounting 84 HP wide subracks in the 19" plane
- Loading capacity: 25 kg per pair
- The guiding profile is matched to the fixing dimension in the cabinet (it is bolted to the 19" profile of the cabinet); the adaptor rail is matched to the depth and fixing dimension on the subrack (it is inserted into the guiding profile like a telescopic slide)
- Safety note:
No protection against extraction, no stop at full extension

2	2	Nut, M2.5, St, zinc-plated

Order Information

Description		Part no.
Slide nut kit 1	100 slides/200 nuts	24560-165
Slide nut kit 2	12 slides/24 nuts	24560-166

Note

- Nuts used in item 3 suitable for:
 - hinged front panels, 84 HP
 - front or rear panels, 84 HP
- Nuts used in item 4 suitable for:
 - hinged front panels
- Nuts used in item 3 and 4 suitable for:
 - two front panels

Application examples

Application: Transportation/defense sectors

- Mounting frame to accommodate a 36 HP wide railway subrack, frame from stainless steel

- Robust assembly by double bolt-on fixing
- Lateral ducting in cabinet
- Combined mounting 6 U+ 2 x 3 U

Application: Measurement, control and instrumentation sectors

- Combined mounting with 2 x 3 U in 6 U
- Divider plate to separate different sections
- Installation with strengthened guide rails

- Subrack with additional telescopic fan unit
- Adaptation at bottom and top integrated into the side panel

Application: Telecoms sectors

- Shielded subrack for special applications with mounting plate, cover and base plate
- Mounting plate for heavy assemblies

- Subrack with plastic cable ducting for fibre optic cables
- Terminal area at top

Subracks - for railway applications

F_2015161_06104008

06108013

06108014

06108015

An alignment pin to NFF standard allows the easy installation of the subracks

Lateral support bars to NFF standard facilitate insertion of subrack into the (cabinet) frame

The 19" bracket is firmly fixed to the side panel (toxic-cold welded) and is especially suited for high mechanical stresses (vibration resistance)

06108016

06108017

06108015

The double 19" screwing position adds to additionally safety (NFF standard)

The cut-out in the side panel allows to retrofit the threaded insert, also if the side panels are already assembled

The rear brackets have two functions:
- push-in aid and
- transport protection for the connectors
The removable rear hood allows a fast cabling between backplane and connector

Downloads and further important information can be found on the Internet under www.schroff.biz

19" subrack for mobile rail applications

- Shock and vibration resistance to IEC 61587-1, EN 50155, NF F 61-005 / NF F 60-002, BN 411002 and BN 411003
- Versions for CompactPCI applications

Subracks - **europac PRO** for railway applications

Subrack for mobile rail applications

Solid mechanical construction
 Electronics for mobile applications require robust mechanical construction that can withstand extreme environmental conditions. Our enclosure solutions protect the housed electronics thanks to their high mechanical strength and thus are an important element for secure and trouble-free operation of the entire system. Only dependability, down to the last detail, can make complex safety tasks achievable - and also economic.

Shock and vibration resistance
 Schroff products assure shock and vibration resistance in mobile applications e.g. by suitable material thicknesses and fixing elements. Tested with typical loads, they offer the best conditions for secure and reliable functioning in individual applications and projects.

Certification of mechanics
 High-quality, robust and durable products are an important component for the certification of a complete application in accordance with the European Railway Standard DIN EN 50155, the German Railway Standards BN 411002 and BN 411003 and the French Railway Standards NF F 61-005 and NF F 60-002.

Note
 fer = ferroviaire (French) = railway
 1 T = 4 HP = 20.32 mm

Railway Technology brochure
 A large amount of general information on our railway systems solutions can be found at www.schroff.co.uk/railway/ and in our "Railway Systems" brochure.

Guide rails with coding for CompactPCI and VME64x

06102003

- The guide rails conform to IEC 60297-3-100 and IEEE 1101.10/11, are 4 HP wide and can be fitted with keying/coding pegs
- Material PBT UL 94 V-0, groove width 2 mm, for board thickness 1.6 mm
- Colour:
 - red (CPU board)
 - grey (periphery board)
 - green (CompactPCI power supply unit, 0.1" offset)

Order Information

Description	Depth mm	Qty/PU	Part no.
Guide rails with coding, red	160	10	24560-356
Guide rails with coding, grey	160	10	24560-358
Guide rails with coding, green, offset	160	10	24560-359

Panhead screw with Torx

PU 50 pieces

24560-256

Coding peg PC, UL 94 V-0, RAL 7035, PU 100 pieces

20817-501

- More guide rails see page 6.36
- For inserter/extractor handle type IEL/IET for CompactPCI or VME64x applications see Subracks/Plug-in units section, page 7.18

Guide rails on horizontal rail type H

04505050

ESD clip for alignment pin

06103052

Subracks - *europac PRO* for railway applications

Cover plate for screw-fixing onto side panel

- Suitable for use with all horizontal rails
- Cover plate for mounting of 160 mm, 220 mm or 280 mm deep PCBs
- Lateral notch to mount the horizontal rails in depths of 160 mm or 220 mm
- Shielding by optional EMC stainless steel contact strips between cover plate and horizontal rail

Delivery comprises

Item	Qty	Description
1	2	Cover plate, Al, 1.0 mm, clear chromated, hole diameter 4.0 mm, (no perforation at 55 mm depth)
2	16/32	Torx M4 x 6 pentaform bolts, St, zinc-plated

Order Information

Subracks - for industrial applications

06112008

We package your euroboards - even for applications in harsh industrial environments

- A wide range in different dimensions, with finishes for the most diverse applications
- In accordance with the IEC 60297-3-101 and IEEE 1101.1 standards
- Tested to IEC 61587, VG 95373 T15, EN 50155, BN 411002, NF F 67-012, NF F 60-002
- Delivered as a kit in space-saving package or individually assembled and fitted to your specifications

Applications

06112009

Subracks for mounting on mounting plate incl. connection field

06112010

Subracks with special adaptation

06108081

Downloads and further important information can be found on the Internet under www.schroff.biz

19" subracks

- Shock and vibration resistant up to 25 g
- Kits or individually configured subracks
- A product and accessory platform for the most different customers' requirements and applications
- Suitable for CompactPCI and VMEbus insertion and extractor handles
- EMC shielding can easily be retrofitted
- 3D PDF or CAD 3D data available for download

06112017

Kits

- All required parts are available under one part number, even partly assembled
- Most popular versions and dimensions available from stock
- For installed loads over 15 kg up to 60 kg
- Supplied as a space-saving flat pack

06105058

ServicePLUS individual configuration

- Single parts may individually be configured, respectively assembled on request (from quantity 1)
- Wide range of variants in height, width and depth
- Guide rails for different applications
- EMC shielding material to improve EMC performance
- Other accessories and assembly kits

Overview of individual components for shielded or unshielded subracks

06108086

Item	Description	Description	page
Item 1	Side panels	Establish the height and depth of the subrack; Al, 3 mm, with universal hole positions for mounting of accessories	6.97
Item 2	Horizontal rails	Establish the width of the subrack; Al extrusion, with defined hole positions for guide rails, grooves for threaded inserts, M4 thread at front, functional rail shapes, basically differing with regard to their mechanical loading capacity: rugged loading up to 15 kg	6.98
Item 3	Guide rails	Guide rails act as interface between subracks and boards, for different board formats, are available in plastic or metal, optionally codable and optionally can be fitted with ESD clip to allow electrostatic discharge	6.105
Item 4	Cover plates	Provide mechanical protection and/or EMC shielding and are perforated	6.108
Item 5	Rear/front	Rear hood (5a) or front panel (5b) with corner profile (5c) as support for EMC shielding gaskets used in conjunction with shielded front panels; Note: rear hood and corner profile cannot be fitted simultaneously	6.47
Item 6	Handles	Handles can be mounted on the 19" brackets	6.97
-	EMC shielding (without illustration)	Extensive component range for specific shielding of subrack according to your application	6.110
-	Internal mounting (without illustration)	Universal assemblies, e.g. for horizontal and vertical mounting and for mounting plates	6.109 6.58

Subracks - *europac PRO* rugged ServicePLUS

EMC gasket between horizontal rail and cover plate

Order Information

		Stainless steel EMC gasket, between cover plate and horizontal rail <p>stainless steel EMC gasket, clips into the horizontal rail and forms the contact with the cover plate; suitable for all horizontal rails</p>	
Width HP	Depth mm	PU 10 pieces	PU 100 pieces
42	202.9	24560-241	—
84	416.6	24560-245	24560-246
Assembly tool, to fit EMC gasket, stainless steel, for horizontal rails, 1 piece		24560-271	24560-271

EMC gasket between backplane and side panel

Order Information

		Stainless steel EMC gasket between backplane and side panel (depth-offset installation) <p>2 x support profile, Al extrusion, 2 x stainless steel EMC gasket; for vertical EMC shielding between depth-offset shielded backplane and side panel: dimensions for 84 HP A = 425.8 mm, B < 429.9 mm, C = 429.8 mm, D = 431.8 mm</p>	
Height U	Depth mm	PU 1 kit	
3	97.5	24561-199	
6	187.5	24561-499	
Torx countersunk screw M4 x 7, St, zinc-plated, PU 100 pieces		24566-105	
Square nut M4, St, zinc-plated, PU 100 piece		24560-140	

With appropriate design, the backplane can be used as shielded rear wall of the rack; in this case a rear horizontal rail (L-type VT or H-VT) must be used for deeper installation to ensure the horizontal contact.

Für den vertikalen Kontakt kann die Trägerleiste standardmäßig an der europacPRO-Seitenwand befestigt werden (Tiefenraster 30 mm)

19" chassis - *multipacPRO*

06005001

Standards/certifications

- Exterior dimensions in accordance with: IEC 60297-3-100, 101, 105
- Ingress protection IP 20 in accordance with IEC 60529
- EMC testing in accordance with VG 95373 part 15 or IEC 61587

06008009

Handles can be bolted on from front

06008010

High stability with aluminium profile side panel

06008011

Mounting plate for fitting heavy components

Top cover and base plate in 3 versions

06008003

Plain

06008005

Perforated

06008004

For standardised board mounting

Downloads and further important information can be found on the Internet under www.schroff.biz

Main Catalogue
E 10/2012

The ideal solution for electronic devices in the most compact dimensions

- Aluminium or steel (AlZn coated) designs
- For standardised 19" board mounting or for installation of non-standardised components
- EMC shielding upgradable
- Mounting service and customized machining with ServicePLUS

06008005

19" complete chassis

- 2 materials
 - Steel plate (AlZn coated)
 - Aluminium
- 3 top cover versions
 - Top cover/base plate, solid
 - Top cover/base plate, perforated (aluminium version)
 - Top cover/base plate for standardised PCBs (aluminium version)

06008001

19" chassis, individually configured from separate parts

- For non-standardised assemblies with mounting plate
- For standardised board assembly
- Customised solutions

30407004

ServicePLUS from page 6.118

- e.g. individual configuration and assembly
- e.g. modification (cut-outs)
- e.g. downloads (CAD drawings, user manuals, test reports)
- e.g. custom solutions (special sizes)

19" chassis - *multipacPRO*

19" complete chassis from steel with plain top cover and base plate

- Complete chassis, St (AlZn coated) with Al extrusion front panel
- Detachable rear panel for easy machining
- EMC shielding of approx. 30 dB(A) at 1 GHz (without additional shielding material)
- In accordance with standard IEC 60297-3-101
- In the 1 U version 19" and ATX power supplies can be assembled up to a clearance of 40 mm

Delivery comprises (Kit)

Item	Qty	Description
1	1	Front panel, Al extrusion, 3 mm; in 1 U: front anodised, rear etched; from 2 U: front and rear side of front panels clear passivated
2	1	Base body, plain, St, 1 mm, (AlZn coated)
3	1	Rear panel, St, 1 mm (AlZn coated)
4	1	Cover, plain, St, 1 mm (AlZn coated)
5	1	Assembly kit
