

Grove Breakout for LinkIt 7697

SKU 103020092

Description

Grove Breakout for LinkIt 7697 is a Grove port integrated and a feature expansion board for LinkIt 7697 development board. The onboard 2x14 pin female header allows you to plug LinkIt 7697 on the board easily. As a Grove breakout board, the 12 plug-and-play Grove socket will save a lot of work for quicker prototyping, especially for novices through simplified wiring procedure.

The grove breakout for LinkIt 7697 is the best expansion board to help a beginner get quick start with LinkIt 7697. We also created a Grove Start kit based on this breakout board.

Features

- Up to 12 Grove Sockets
- Easy Mounting with 2x14 Pin Female Header
- Debug Pin Header Supported

Interface Details

Debug Interfaces	SWD x1
