

Grove Starter kit for Arduino&Genuino 101

SKU 110020109

Rapid prototyping Well-chosen Grove modules Easy-to-use base shield

Holding both an [Arduino/Genuino 101](#) and a nice idea but don't know where to start? This kit can help you on that. It introduces the simplicity of [Grove System](#) to your Arduino project. The Grove Base Shield works perfectly on the Arduino/Genuino 101 or any development board that applies the Arduino Uno form factor. With a bunch of well-chosen and plug-and-play Grove modules, you can set up a project and turn your idea into real thing easily and quickly. Now check out the part list below to see what we've prepared for you!

NOTE: This kit DOES NOT include the Arduino/Genuino 101.

Features

- Plug-N-play Grove system
- Easy-to-use base shield for Arduino/Genuino 101
- Various well-chosen Grove sensors and actuators for rapid prototyping

Technical details

Dimensions	0mm x0mm x0mm
Weight	G.W 328g
Battery	Exclude

Part List

Grove- Button	1
Grove – Sound Sensor v1.2	1
Grove – Touch Sensor	1
Grove – Light Sensor v1.2	1
Grove – Temperature Sensor v1.1	1
Grove – Rotary Angle Sensor(P)	1

Grove – Piezo Vibration Sensor	1
Grove – LCD RGB Backlight	1
Grove – Buzzer	1
Grove – LED v1.3	1
Gear Stepper Motor with Driver	1
Grove Base Shield v2	1
Grove Universal 4 Pin Cable	1
Red LEDs	1
Green LEDs	1
Blue LEDs	1
