# EC Safety Data Sheet according to Directive 1907/2006

Trade name: Solder-wire HS10 2510 S-Sn60Pb40

Date of issue: 06.05.2003 Revised on: 23.11.2011 Date of print: 25.11.2011 Page: 1(3)

# 1. Identification of the substance/preparation and of the company/undertaking

Information on the product

Trade name: Solder-wire HS10 2510 S-Sn60Pb40

Usage of the product / preparation Solder wire for soft soldering

Identification of the manufacturer / supplier

Address: Stannol GmbH

Oskarstr. 3 -7 42283 Wuppertal

**Phone:** 0202 585 0 **Fax:** 0202 585 155

Emergency call: 0202 585 119 (only during trading hour ( 8:00 h - 17:00 h)

E-mail: werner.kruppa@stannol.de

#### 2. Hazards identification

Not a composition for the purposes of the Dangerous Substances Regulations, but nevertheless observe items 4-16

#### Additional hazards for human health and environment:

May cause occupational asthma

# 3. Composition/Information on ingredients;

Chemical characterization: Tin/Lead – alloy with flux max.3,5 % (halide activated)

Composition according to EC 1907/2006:

Contents CAS No. EINECS No. Symbols R-phrases: Substance

 59,5-60,5%
 7440-31-5
 231-141-8
 Tin

 Remainder
 7439-92-1
 231-131-3
 Lead

 <3,5%</td>
 8050-09-7
 232-475-7
 Xi
 43
 Rosin

The wording of the R-phrases stated is indicated in Section 16

#### 4. First Aid measures

General information: If casualty is unconscious but breathing, place in the recovery position. If breathing has stopped apply

artificial resuscitation or give oxygen by mask

After inhalation: Remove patient to fresh air. If irritation resists, obtain medical attention.

After skin contact: If any skin irritation develops seek medical attention

After eye contact: Flush immediately with plenty of water. In cases where spitting flux has entered the eye seek medical

attention.

After ingestion: Rinse mouth immediately and drink plenty of water. Seek medical advice.

Hints for doctors. Inhalation of the flux fumes given off at soldering temperatures will irritate the nose, throat and respiratory

system.

Repeated or prolonged exposure to flux fumes may cause shortness of breath and cough.  $\!\!\!$ 

Physician's information

fire fighting

**Treatment:** Decontamination, treatment of symptoms.

#### 5. Fire fighting measures

Suitable extinguishing media: Use ext

Use extinguishing media appropriate to surrounding fire conditions

Special protective equipment for

Wear self-contained breathing apparatus and protective clothing to prevent contact with skin and

eyes.

#### 6. Accidental release measures

Pick up and place in appropriate container

### 7. Handling and storage

The fumes produced during soldering should be extracted away from the breathing zone of the operators. Ensure the area is well

ventilated. Wash hands with soap and warm water after handling, particularly before eating, drinking or smoking.

The product should be stored in a cool, dry area.

#### 8. Exposure controls and personal protection

Additional information on system design:

Local exhaust or dilution ventilation and control of process conditions are suitable methods..

Substances with limit values to be monitored at the working place:

Danger to health at the working place:

Peak limit category:

Working place limit values according to TRGS 900 from Section 2 for Germany:

Product name CAS No. ml/m³ (ppm) mg/m³ Type Category Remarks

Tin 7440-31-5 2 MAK (NL) Lead 7439-92-1 0,1 MAK (TLV)

Working place limit values according to EH40/2005 of the UK:

Product name CAS No. ml/m³ (ppm) mg/m³ mg/m³

8h TWA reference period 15 min STEL reference period

0.15

 0,15

Rosin-based solder 8050-09-7 0.05

flux fume

BAT-Value Lead/blood level: 700µg/l,

Women below 45 years: 300µg/l

Skin resorption / Sensitization: Skin resorption ---- Sensitization: S(rosin)

General protection and hygiene measures

Avoid direct contact with eyes, the skin and clothing.

Personal protection

**Respiratory protection:** If concentrations are over the exposure limit, use a supplied air respirator.

Hand protection:

Eye protection:

Personal protection:

Use heat resistant gloves if required.
Operators should wear goggles
Light protective clothing

### 9. Physical and chemical properties

Form: Tin-Lead Solder

Colour:silver

7-9 g/cm<sup>3</sup>

**Melting Point:** 183 °C **Vapour Pressure:** n.a.

10. Stability and reactivity

Reaction with substances: Possible with oxidising agents.

Hazardous combustion or Lead-oxides possible

decomposition products:

Density(20°C):

## 11. Toxicological information

The toxicological classification of the product is based on the results of the calculation procedure of the general preparation directive 1999/45/EC.

#### **Acute Effects:**

Acute intoxication by ingestion of skin contact with lead is inprobable. High doses nevertheless lead to symptoms of poisoning. Inhalation of fumes can irritate the respiratory tract and eyes.. May cause occupational asthma

#### All following items refer to pure lead

**Acute Toxicity** 

TypeValue in mg/KgFormSpeciesLD.LO160oralpigeonLD.LO1000iprat

LD.LO (oral, pigeon): 160 mg/kg; TD.LO (oral, woman): 450 mg/kg (damage to nervous system); LD.LO (ip., Rat): 1000 mg/kg;

TC.LO(inhal., human): 10 mg/m^3;

## 12. Ecological information

General information: Lead and combinations of lead are not biological reducible.

# 13. Disposal considerations

**Disposal information** 

Product: Contact a licensed professional waste disposal service to dispose of this

material.

Further information: Observe all federal, state and local environmental regulations. Collect metal

for recycling

Waste identity number: Waste identity number EAK-code: 120104

# **14. Transport information**

GGVSEB/ADR/RID: The product is not classified as hazardous for transport

# 15. Regulatory information;

Labelling information: The product is classified and labelled according to the EC Directives.

Not subject to current legislation

Water hazard class: WGK 1 (weakly water-endangering)

Classification according to the TA Luft: Organic materials class III; whole-carbon-concentration: Max. acceptable

Emission50 mg/m<sup>3</sup> (mass-flow-rate >= 0,5 kg/h)

Ingredients: Tin, Lead, rosin

# 16. Other information

R-phrases point 3: 43 May cause sensitization by skin contact

n.a. not applicable

n.k. not known

German regulations:

See TRGS 505 "Lead and leaded dangerous compounds"

This statement is based on our current knowledge and offers no assurance of product properties.
