

EnFilm™ micro battery EFL700A39 evaluation kit

Data brief

Features

PMB:

- Manages the charge and voltage regulation of the EFL700A39
- Protects battery against deep discharge
- Allows battery recharging by external energy harvesting source or USB port
- Includes a super-capacitor to sustain high pulsed discharge current

LB:

- Includes an analog ammeter and a digital voltmeter to monitor: The current delivered by the source, the current going through the EFL700A39 battery, the battery voltage
- Includes a pulsed load emulator with the possibility to adjust the pulsed load cyclic ratio

Description

The EFL700EVALKIT is a kit which contains a power management board (PMB) and a load board (LB).

It allows discovering the operation of the EFL700A39 and monitoring the voltage and the dynamic charge / discharge current in real use-case conditions.

Table 1. Device summary

Parameter	Value
Dimensions	62 x 140 mm
Thickness	58 mm

TM: EnFilm is a trademark of STMicroelectronics
