# **STBR6012**

# High voltage rectifier for bridge applications

Datasheet - production data

### **Features**

- Ultra-low conduction losses
- Ultra-low reverse losses
- High junction temperature capability
- ECOPACK®2 compliant component

### **Description**

The high quality design of this diode results in a device with consistently reproducible characteristics and intrinsic ruggedness. These characteristics make it ideal for heavy duty applications that demand long term reliability.

Thanks to its ultra-low conduction losses, this diode is especially suitable for use as input bridge diode.

**Table 1: Device summary** 

| Symbol                | Value  |
|-----------------------|--------|
| I <sub>F(AV)</sub>    | 60 A   |
| Vrrm                  | 1200 V |
| V <sub>F</sub> (typ.) | 0.95 V |
| T <sub>j</sub> (max.) | 175 °C |

Characteristics STBR6012

## 1 Characteristics

Table 2: Absolute ratings (limiting values at 25 °C, unless otherwise specified)

| Symbol              | Parameter                                                             | Value                                               | Unit |   |
|---------------------|-----------------------------------------------------------------------|-----------------------------------------------------|------|---|
| V <sub>RSM</sub>    | Non-repetitive surge reverse voltage                                  |                                                     | 1500 | V |
| $V_{RRM}$           | Repetitive peak reverse voltage                                       |                                                     | 1200 | V |
| I <sub>F(RMS)</sub> | Forward rms current                                                   | 90                                                  | Α    |   |
| I <sub>F(AV)</sub>  | Average forward current                                               | $T_C = 135  ^{\circ}C$ , $\delta = 0.5$ square wave | 60   | Α |
| I <sub>FSM</sub>    | Surge non repetitive forward current $t_p = 10 \text{ ms sinusoidal}$ |                                                     | 500  | Α |
| T <sub>stg</sub>    | Storage temperature range                                             | -65 to +175                                         | °C   |   |
| Tj                  | Maximum operating junction temperatur                                 | 175                                                 | °C   |   |

**Table 3: Thermal parameters** 

| Symbol               | Parameter        | Max. value | Unit |
|----------------------|------------------|------------|------|
| R <sub>th(j-c)</sub> | Junction to case | 0.45       | °C/W |

**Table 4: Static electrical characteristics** 

| Symbol                                  | Parameter               | Test conditions         |                       | Min. | Тур. | Max. | Unit |
|-----------------------------------------|-------------------------|-------------------------|-----------------------|------|------|------|------|
| . (1)                                   |                         | T <sub>j</sub> = 25 °C  | \/ \/                 | -    |      | 5    |      |
| I <sub>R</sub> <sup>(1)</sup> Reverse I | Reverse leakage current | T <sub>j</sub> = 150 °C | $V_R = V_{RRM}$       | -    | 25   | 250  | μA   |
| V <sub>F</sub> <sup>(2)</sup>           | Forward voltage drop    | T <sub>j</sub> = 25 °C  | I <sub>F</sub> = 60 A | -    | 1.05 | 1.3  | V    |
|                                         |                         | T <sub>j</sub> = 150 °C |                       | -    | 0.95 | 1.2  |      |

#### Notes:

 $^{(1)}$ Pulse test:  $t_p$  = 5 ms,  $\delta$  < 2%

 $^{(2)}$ Pulse test:  $t_p$  = 380  $\mu$ s,  $\delta$  < 2%

To evaluate the conduction losses, use the following equation:

 $P = 0.96 \text{ x } I_{F(AV)} + 0.004 \text{ x } I_{F^{2}(RMS)}$

Package information STBR6012

## 2 Package information

In order to meet environmental requirements, ST offers these devices in different grades of ECOPACK® packages, depending on their level of environmental compliance. ECOPACK® specifications, grade definitions and product status are available at: **www.st.com**. ECOPACK® is an ST trademark.

• Epoxy meets UL94, V0

Cooling method: by conduction (C)
 Recommended torque value: 0.55 N·m

Maximum torque value: 1.0 N·m
