Storm
5000 Series Integrated Keypads

Developed for use in a wide range of industrial and commercial applications, this integrated keypad and optional display is ideal for use in exposed, hostile or public environments. The display type can be specified to suit most applications.
The optional LCD display module is securely located behind a coated, scratch resistant water sealed polycarbonate window.
Generous provision is made for the locatin of interface and encoding circuitry on the rear face of the keypad.
The FT Integrated Keypad can also be specified with the unique Storm 'Graphics' keytop technology. These innovative keytops enable customization of keytop characters and colours (even in low quantities). Please refer to the Storm 'Graphics Series' keypads datasheet for more information and Storm's 'Graphics' keytop technology.
