

All dimensions in mm

- Provides an easy means of exit through a normally locked door
- Touch-free technology
- 12 VDC
- 2 Year limited warranty
- Designed to meet FCC and CE requirements
- Illuminated for easy visual location
- Colour change to indicate activation

## Request to Exit Switch (Illuminated)

Specified for use with all Storm AXS access control systems this touch-free technology 'request to exit' switch allows personnel to leave a secured area by simply waving their hand across an illuminated sensor.

This device is designed to be easily installed to a flush mounted, standard US format, electrical back box.

This REX switch provides a fast and convenient lock release for a defined (timed) duration. The active switch is surrounded by an illuminated annular ring that changes colour when the switch is activated. Intended for location at the secured side of any access controlled door.

### Typical Installation of a Request to Exit Switch
