- -Available as single and double gang with 0. 1. 2. and 4 connector holes
- -Available with standard (non-threaded) or tapped 4-40 connector mounting holes
- -RoHS Compliant

E & EH Series Wall Plates

E & EH Series Wall Plates from Switchcraft® are the perfect solution for anyone requiring custom connector configurations on standard size wall plates. Options include single and double gang with 0, 1, 2, and 4 connector holes. Plates are available in brushed stainless steel or anodized black aluminum and with standard or tapped 4-40 connector mounting holes. Tapped 4-40 connector mounting holes allow connectors to be screwed directly into the plate without the use of a nut (front mount only).

Any combination of Switchcraft® E and EH Series panel mount connectors are compatible, providing the most customizable line of audio, video, and data connectivity available for standard size wall plates.

E & EH Series Wall Plates

SINGLE GANG 2 CONNECTOR HOLES

PART NUMBER	GANG SIZE	FINISH	EH CONNECTOR HOLES	CONNECTOR MOUNTING HOLE
WP1S	1	STAINLESS STEEL	0	NONE
WP1S1	1	STAINLESS STEEL	1	Ø0.138
WP1S1P	1	STAINLESS STEEL	1	#4-40 THREAD
