

Altera medical-grade, thin wall, semirigid, fluoropolymer heat-shrinkable tubing

Altera MT1000 heat-shrinkable tubing is tough, semirigid tubing with a very thin wall construction. It is especially suitable for applications requiring high-temperature performance, outstanding resistance to abrasion and cut-through, and excellent resistance to a variety of fluids. In polar media, such as aqueous systems and alcohols, property retention and dimensional stability are exceptional.

The translucent polyvinylidene fluoride material permits visual inspection of

covered components. Altera MT1000 tubing provides electrical insulation and strain relief for components that are exposed to high temperatures – either during operation or during sterilization. With its thin-wall construction, Altera MT1000 tubing is ideal for applications that have clearance constraints.

Altera MT1000A tubing provides an inner layer of adhesive. During installation, the USP Class VI adhesive layer will reflow

around the substrate to provide sealing or blocking against fluids and other bioburden materials.

Altera MT1000 tubing may be sterilized by radiation, ethylene oxide, steam, and dry heat with no significant change in properties. It is fabricated from materials that meet the requirements of U.S. Pharmacopeia (USP) Class VI plastics (contact with injectables and body fluids or tissue).

Temperature rating

| | |
|---|---|
| Full recovery temperature: | 175°C |
| Continuous operating temperature: | MT1000: -55°C to 155°C MT1000A: -55°C to 125°C |
| Recommended maximum temperature for use as a primary insulator: | 135°C |

Specifications*

| Type | Raychem | Material | Master File Number |
|---------|-------------|--------------|--------------------|
| MT1000 | MT1000 SCD | USP Class VI | MAF-444 |
| MT1000A | MT1000A SCD | USP Class VI | MAF-798 |

*When ordering, always specify latest issue.

**Wall thickness will be less if tubing recovery is restricted during shrinkage.
 ***Nonstandard size; available by special order only.

Ordering information

| | | |
|----------------------|--|----------------------|
| Colors | Standard Nonstandard | Translucent Black |
| Size selection | Always order the largest size that will shrink snugly over the component being covered. A variety of special order sizes are available. | |
| Standard packaging | 4-foot lengths, double-bagged | |
| Ordering description | Specify product name, size, and color; for example, MT1000-1/8-0 (0=Black). Specify MT1000A for adhesive-lined constructions in sizes 1/8" and larger only (special order). | |
