BRANCHE CONNECTEURS AEROMILITAIRES

Single Module EN4165

Arinc 809 - BACC65 - EN4165

The DMC-M is a modular rectangular connector which **was designed and developed by Deutsch in the 1980's**. It has since set the modular connector standard in the Aerospace & Military industries, and is now standardised by European Specification **EN4165**.

■ The modularity

The DMC-M is designed to address a wide range of requirements due to its wide range of contacts arrangements : from contacts size 22 to size 8, but also coaxial, quadrax, **high speed Ethernet or optical contacts**.

Each mated half of the DMC-M connector can contain both male and female configurations which allow you to mix input and output with signal and power supply. You can easily modify your system by simply removing modules from the shells and replace them with a new layout. This makes the DMC-M perfect for both **new designs** and **retrofit applications**.

■ The safety

The DMC-M provides a large number of insert layout possibilities. It allows different keying possibilities between plugs and receptacles.

The DMC-M provides a real EMI protection following most stringent Aerospace and Military specifications. In addition of Series II, DMC-M scoop proof Series III inserts and shells **are developed to increase mating security**.

■ The reliability

To increase the level of reliability of the cabin interconnections, the Single Module DMC-M is compliant with the most demanding avionic specifications, in terms of **sealing, vibrations, smoke and toxicity** or mechanical endurance in accordance with EN4165.

■ The weight optimization

Weight saving is commonly a high concern, the Single Module DMC-M has been designed in **composite** with a metallized plating for weight and mass saving.

ARINC809 - BACC65 - EN4165

The New Standard Connector for Aircraft equipment and cabin systems.

Advantages

Light weight composite, modularity, color and mechanical coded, push pull coupling are the key features of this connector. In addition the EN4165 range is aluminium cable contact compliant.

ARINC809, BACC65, EN4165 qualified

Markets & Application

Cabin and avionic systems
Military - Railway

Technical characteristics

Housing : Composite
 Plating : Nickel
 Inserts : Thermoplastic and FSR
 Vibrations : 20 g
 Durability : 500 mating cycles
 Salt spray : 500 hours
 Contacts : Copper alloy with gold on nickel plating
 Interfacial sealing: $1,1 \cdot 10^{-2}$ bar

Electrical characteristics

Temperature range : -55° C to + 175° C
 Insulation resistance : $\geq 5000 \text{ M}\Omega$
 Maximum current : Size 22 : 5 A
 Size 20 : 7,5 A
 Size 16 : 13 A
 Size 12 : 23 A
 Size 8 : 46 A
