

ENTRELEC Terminal Blocks

The clever distribution concept

The exclusive compact and modular design of our power distribution blocks allows easy installation combined with a great flexibility of use.

Easy to install

3 configurations in 1 product:

Single pole splitter: split of power main input into several outputs **Multiple poles splitter:** interlocking function and ready to use marking kit (L1, L2, L3, N, PE, +, -) delivered with each block **Grouping:** of several inputs into 1 output (solar application). **Flexible cover facilitates identification & wiring:**

- Reversible, two directions opening, snap-on
- All wiring data's and specifications visible on top.

Space saving

Panel space saving:

Save up to 50 % rail space compare to conventional distribution bars thanks to our modular compact design. **1 500 V DC:**

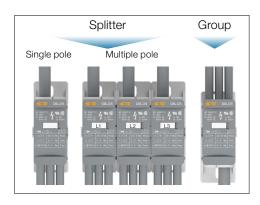

Voltage rating adapted to most recent solar inverters requirements.

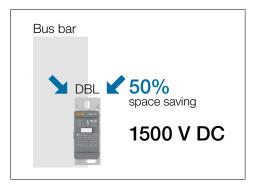

Increased productivity

Reduced wiring, inventories, hardware and assembly costs:

- Reduce assembly time by 80 % compared to conventional systems
- Our modular and touch proof concept eliminates the needs for bus bars, isolators, fasteners, protection screens...
- Accept aluminum & copper conductors
- 1 product in stock for 3 possible configurations.

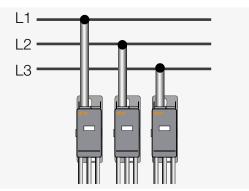

Distributing power in industrial and commercial panels HVAC, machinery, power distribution unit (PDU), commercial panel

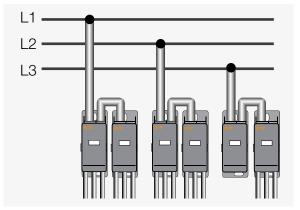

3 Phases

DBL80, DBL125, DBL160, DBL175, DBL250, DBL400, DBL125-3, DBL175-C-3

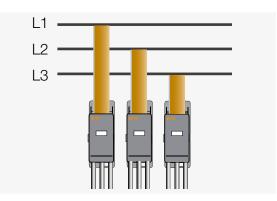

3 Phases with jumpering wire

DBL80, DBL125, DBL160, DBL175, DBL400-PV, DBL125-3, DBL175-C-3 and DBL500-22

3 Phases for flat conductor

DBL250-F, DBL500-F

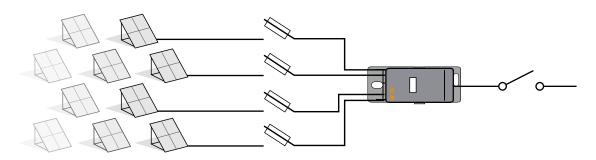

2 in/2 out configuration DBL500-22

Combining PV strings in one single output PV combiner box, central inverter in a solar power plant

Up to 12 PV strings

DBL80...DBL500-F

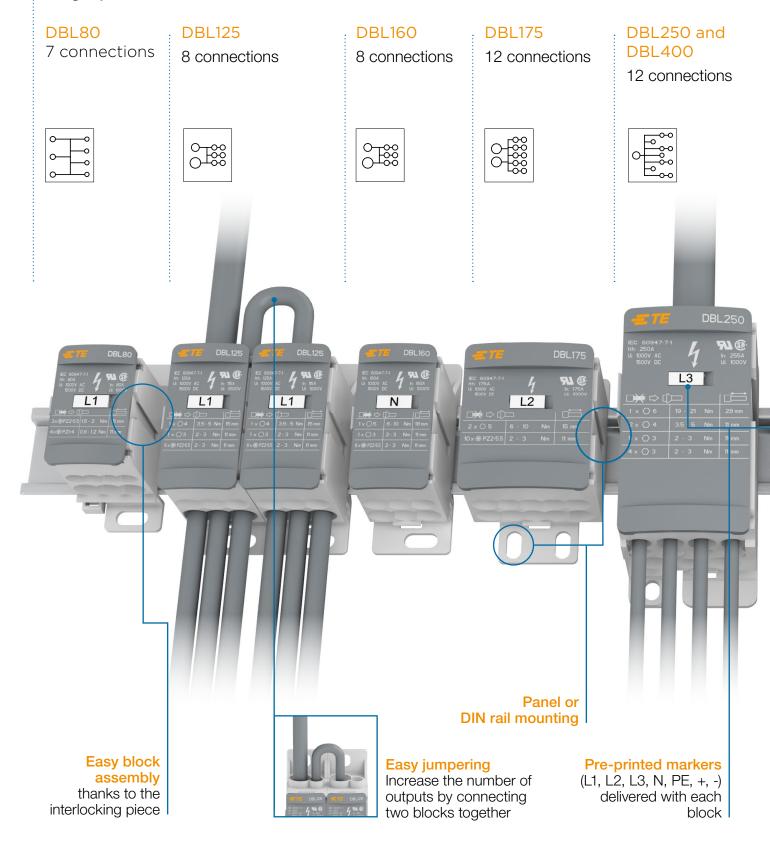

DBL400-PV specifically designed for solar application with 12 inputs of 16 mm².

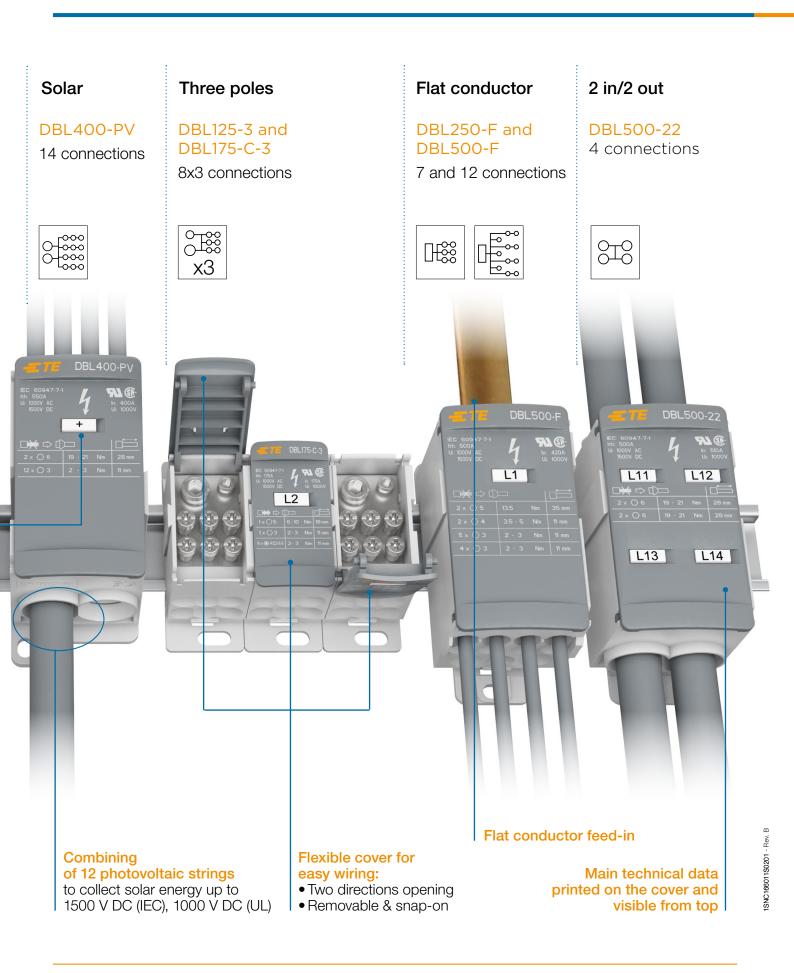

Range overview 1000 V AC / 1500 V DC (IEC) - 1000 V (UL), from 80 to 550 A

Mounting instructions

Description

- 3 configurations: distribute unipolar and multipolar power lines, or combine several inputs
- Mount it on Din rail or plate and save up to 50% rail space compared to conventional copper bars
- Reduce the assembly time by 80% by avoiding to use fastening and isolating components
- Increase the number of outputs by using the optional input and connecting two DBL together
- Easy identification with the reversible cover and delivered pre-printed markers L1, L2, L3, N, PE, +, -.

96 3.78° 84.5 3.33° 90 5.4 x 7.6 mm 0.21 x 0.3°

46 mm 1.81 in spacing

Mounting instructions

Description

- 3 configurations: distribute unipolar and multipolar power lines, or combine several inputs
- Mount it on Din rail or plate and save up to 50% rail space compared to conventional copper bars
- Reduce the assembly time by 80% by avoiding to use fastening and isolating components
- Easy identification with the reversible cover and delivered pre-printed markers L1, L2, L3, N, PE, +, -.
