- CONNECTOR CODE NUMBER

HEX40 = MIL-C-38999 SERIES III AND IV

- MATERIAL CODE:

A = ALUMINIUM ALLOY

- PLATING CODE:

B = CADMIUM OLIVE DRAB TO SAE-AMS-QQ-P416
C = ELECTROLESS NICKEL TO SAE-AMS-C-26074

- BODY STYLE
$00=$ STRAIGHT
$45=45^{\circ}$
$90=90^{\circ}$
- ORDER NUMBER
- FERRULE QUANTITY CODE
- C = CONDUIT CLAMPING NUT
- DS = DRILLED STAR - SEE NOTE 2

## APPLICATION

- These adaptors are designed to be mounted on the following connectors:

MIL-C-38999 Series III and IV

- They are qualified to the Raychem specification RB-114, when installed on metallic Mil-Specification circular connectors only.
- They are designed primarily for open wire bundle installations but are also designed to accept Raychem heat shrink moulded parts where sealing is required - see illustration.
- The use of another "conduit" adaptor (e.g. a Tyco TXR40 with an H modification) is necessary to complete the assembly.

- Use in conjunction with the ferrules HET-A-OXX, which are purchased separately. Refer to HET-A-OXX S.C.D. for relevant selection details.

## INSTALLATION

- See Installation Procedure RPIP-696-04 for straight adaptors.
- See Installation Procedure RPIP-696-07 for $45^{\circ}$ and $90^{\circ}$ adaptors.

## PACKAGING

- All components are supplied in a plastic bag.

## NOTES!

1. Item 4 - Star - is not supplied with Hexashield Order Number 09.
2. The DS option, illustrated below, is for a Drilled Star that is available on sizes 15 to 25 for "Standard" ferrule quantities only. This option is to allow unshielded wires to pass through the assembly.

| STAR SIZE | 15 | 17 | 19 | 21 | 23 | 25 |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| tH MAX | 3.0 | 6.0 | 9.0 | 12.0 | 15.0 | 18.0 |
|  | $\left[0.12^{\prime \prime}\right]$ | $\left[0.24^{\prime \prime}\right]$ | $\left[0.35^{\prime \prime}\right]$ | $\left[0.47^{\prime \prime}\right]$ | $\left[0.59^{\prime \prime}\right]$ | $\left[0.71^{\prime \prime}\right]$ |

3. Where the ferrule quantities required are standard, the item 4 - Star - is also standard.

If the optional quantity is selected then 2 items 4 will be supplied - one "split" and the other one standard*, See below for illustration.

EXAMPLE: FERRULE QUANTITY CODE -A13
-A13 = -A10 SPLIT STAR + -AB STANDARD STAR

* On Order Number 19 only, the Optional Ferrule quantity of 8 uses a "standard" star also.

4. Assembly is to be permanently marked with Code Identity Number and Part Number. (egg. 06090 HEX40-AB-00-21-A9-C)
