productinformation

tesa® 51026

PET cloth wire-harness tape for high abrasion protection and high temperature resistance up to 150°C

tesa® 51026 PET Cloth tape is an efficient solution for engine compartment wire harnessing where very high abrasion and high temperature resistance is required.

Its new-generation acrylic adhesive is compatible with new halogen-free cable jacketing materials (PE/PP) and provides enhanced durability. It is optimised for manual and automatic application.

Features:

- high abrasion resistance
- high temperature resistance 150°C/3000h
- oil and fuel resistant
- UV resistant
- flame retardant
- fogging-free
- excellent compatibility with PVC, PE and PP cable insulation
- stable unwind strength
- resistant to ageing
- rot-proof
- tear resistant
- strong adhesion
- flexible and smooth

Main Application

tesa® 51026 PET Cloth tape is designed for the engine compartment wire harnessing, providing high abrasion protection.

Technical Data

	Backing material	PET cloth
	Total thickness	260 μm
•	Type of adhesive	acrylic
	Adhesion to steel	5.5 N/cm
•	Elongation at break	40 %
•	Tensile strength	275 N/cm
	Temperature resistance min.	-40 °C

remperature resistance (500011)
Abrasion resistance (10mm
mandrel)
Abrasion resistance (5mm
mandrel)
Flame resistance as composite

Unwind force (roll width ≤ 9mm)
Unwind force (roll width > 9mm)

tesa® 51026

PET cloth wire-harness tape for high abrasion protection and high temperature resistance up to 150°C

Additional Information

Standard widths: 9, 19, 25, 32 mm

Standard lengths: 25 m

- Most combinations of width and length are possible
- Further dimensions are available upon request
- Standard core diameter: 38 mm
- Applicable for red ring assembly aid
- = " = RAL 2007. Some color fadings can occur under continous strong heat conditions. A standard for color is not specified.
