Shielded 24-port patch panel organizes mission-critical Cat5e/Cat6 cable connections in your high-speed Ethernet network.

### Features

**Shielded 24-Port Patch Panel Organizes and Manages High-Speed Cat6 Network Cabling** Manage your high-density Cat5e/6 application without taking up too much valuable rack space. The N252-024-SH-K offers 24 fully shielded RJ45 ports with color-coded Krone IDC slots that are terminated using a proper punch-down tool. The patch panel supports T568B wiring standards and is fully rated for 5 Gbps data transfer speeds in your Ethernet application. Both the rear and front connectors are numbered and labeled for custom naming to help you identify individual cable runs at a glance.

**Mounts in 1U of Space in Your 19 in. Enclosure or Open Frame Rack** The UL-approved patch panel supports mounting in 1U of space in your EIA-standard 19-inch rack enclosure or open frame rack. It comes with grounding wire, cable ties and a strain relief bar to help cut down on cord clutter, organize your connections, take stress off the Krone connectors and maintain stable performance.
