#### 2. Part No. System

Part No. includes 14 codes shown as below:

2.1 1st~4th codes: Part name. E.g.: CS02,CS03,CS05,CS06,CS07,CS10,CS11,CS12

2.2 5th~6th codes: Power rating.

| _ | E.g.: W=Normal Size |      | "1~ | "1~G" = "1~16" |     |     |     |      |      |      |    |
|---|---------------------|------|-----|----------------|-----|-----|-----|------|------|------|----|
|   | Wattage             | 1/32 | 3/4 | 1/2            | 1/3 | 1/4 | 1/8 | 1/10 | 1/16 | 1/20 | 1  |

#### 8. Derating Curve

Resistors shall have a power rating based on continuous load operation at an ambient temperature from -55  $^{\circ}$ C to 70  $^{\circ}$ C. For temperature in excess of 70  $^{\circ}$ C, the load shall be derated as shown in figure 1

Voltage rating:

Resistors shall have a rated direct-current (DC) continuous working

Voltage or an approximate sine-wave root-mean-square (RMS) alternating-current (AC) continuous working voltage at commercial-line frequency and waveform corresponding to the power rating, as determined from the following formula:

 $RCWV = \sqrt{P \times R}$ 

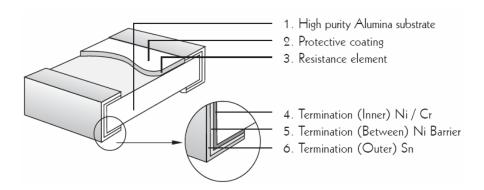

Where: RCWV commercial-line frequency and waveform (Volt.)

P = power rating (WATT.) R = nominal resistance (OHM)

In no case shall the rated DC or RMS AC continuous working voltage be greater than the applicable maximum value.

The overload voltage is 2.5 times RCWV or Max. Overload voltage whichever is less

#### 12. <u>Note</u>

12.1. UNI-ROYAL recommend the storage condition temperature: 15°C~35°C, humidity :25%~75%.

(Put condition for individual product). Even under UNI-ROYAL recommended storage condition, solderability of products over 1 year old. (Put condition for each product) may be degraded.

12.2. Store / transport cartons in the correct direction, which is indicated on a carton as a symbol.

Otherwise bent leads may occur due to excessive stress applied when dropping of a carton.

12.3. Product performance and soldered connections may deteriorate if the products are stored in the following places:

- a. Storage in high Electrostatic.
- b. Storage in direct sunshine  $\, \cdot \,$  rain and snow or condensation.
