VENTION

External Power Support

Supports external DC5V to help you handle work more efficiently when connecting multiple devices.

5V⎓2A

Value of Power Ports
The computer's USB-A port, which has a maximum power of 4.5W, cannot power high-power devices. And the 5V⎓2A power port can be adopted to ensure reliable operation.

Note: This port only powers for the hub, and does not support laptop power delivery or data transfer.

Stable Transmission without Lag

Powerful chip provides safe transmission.
