#### **Product Highlights**

The 28V<sub>DC</sub> MIL-COTS VIPAC family of power systems is a new class of userdefined, modular power solutions for the most demanding military applications. It incorporates preassembled and tested front ends (M-FIAM5B or M-FIAM9), Vicor Maxi, Mini and Micro series DC-DC converters (H or M-Grade), a choice of output connections and mechanical platforms. The  $28V_{DC}$  VIPAC can be specified with 1, 2 or 3 outputs with voltages as low as  $3.3V_{DC}$  to as high as  $48V_{DC}$  and power levels from 40 to 400W per output. Additionally, the wide trim range of the modules can provide operating voltages from 500mv to 52.8V. The MIL VIPAC is available with an input of 28V<sub>DC</sub> in a variety of packages with profiles as low as 0.75".
