

Single tariff power meter, energy calculator with LCD display, built-in battery, black

Marka: **Virone** | Symbol: **EM-4/B** | Ean: **5908254828362**

PRODUCT DESCRIPTION

This power meter allows to check the consumption of electricity and calculate the cost of energy used by the connected device (supports one tariff). Its large LCD display also shows current time, voltage and current, power factor, frequency, maximum current load and overload warning, 4 types of currency can be entered. Internal battery: 2 × 1.5V LR44 maintains the device settings in the event of a power failure. Color black.

TECHNICAL DATA

General information:

| | |
|----------------------------|-----------------|
| Max. load: | 3680 W |
| Type of socket: | 2P+E |
| Current: | 16 A |
| Standard of the socket: | french (type E) |
| Degree of protection (IP): | 20 |
| Installation: | network socket |
| Built-in battery: | Yes |
| Dimensions - depth: | 75 mm |
| Dimensions - width: | 75 mm |
| Dimensions - height: | 147 mm |
