

## Dual tariff power meter with LCD, 2 tariffs, internal battery, 16A 230V, Schuko version

Marka: **Virone** | Symbol: **EM-5(GS)** | Ean: **5908254800924**

### PRODUCT DESCRIPTION

If you are a financially-conscious person and are concerned about saving energy, we recommend investing in an energy calculator with LCD display. It's a dual tariff power meter, with which you can easily monitor the power consumption of your appliances and diagnose which ones consume the most energy. The ORNO power meter allows you to accurately and easily check your electricity consumption and calculate the cost of electricity for specific appliances.

The LCD display offers a full range of monitored parameters, such as mains voltage, circuit current, current frequency, POWER FACTOR, connected load power, total energy consumption in kWh, cost of energy consumed, programmable price per kWh, total time of energy consumption measurement (0sec - 9999 days), averaged weight of CO2 emissions of energy consumed, or voltage measurement in the range 150V~ 276V~. It is the perfect solution for both households and businesses. The backlit display also makes it easy to configure and read the parameters in poorly lit or even dark places.

Therefore, if you want to save on your energy bills and care for the environment at the same time, we recommend ORNO - the ideal choice for controlling your electricity consumption.

Schuko-type socket.

## TECHNICAL DATA

### General information:

Measuring voltage [V]:	180 - 250
Measuring power [W]:	2 - 3680
Rated current [A]:	16
Rated power [W]:	3680
Accuracy class:	0.02
Voltage type:	AC
Width [mm]:	62
Height [mm]:	130
Measuring mechanism:	Cyfrowe
Scales lighting:	tak
Standard:	Ze stykiem ochronnym (SCHUKO)
