# 1.0 pC Charge Injection, 100 pA Leakage, 4-Channel Multiplexer 

## DESCRIPTION

The DG604 is an analog 4-channel CMOS, multiplexer, designed to operate from $\mathrm{a}+2.7 \mathrm{~V}$ to +12 V single supply or from $\pm 2.7 \mathrm{~V}$ to $\pm 5 \mathrm{~V}$, dual supplies. The DG604 is fully specified at $+3 \mathrm{~V},+5 \mathrm{~V}$ and $\pm 5 \mathrm{~V}$. All control logic inputs have guaranteed 2 V logic high limits when operating from +5 V or $\pm 5 \mathrm{~V}$ supplies and 1.4 V when operating from a 3 V supply. The DG604 switches conduct equally well in both directions and offer rail to rail analog signal handling. $<1 \mathrm{pC}$ low charge injection, coupled with very low switch capacitance and leakage current makes this product ideal for use in precision instrumentation applications. Operating temperature range is specified from $-40^{\circ} \mathrm{C}$ to $+125^{\circ} \mathrm{C}$. The DG604 is available in 14 lead TSSOP and the space saving $1.8 \mathrm{~mm} \times 2.6 \mathrm{~mm}$ miniQFN package.

## FEATURES

- Halogen-free according to IEC 61249-2-21 Definition
- Ultra low charge injection ( $\pm 1 \mathrm{pC}$, typ. over the full analog signal range)
- Leakage current < 0.5 nA max. at $85{ }^{\circ} \mathrm{C}$ (for DG604EQ-T1-E3)
- Low switch capacitance ( $\mathrm{C}_{\text {soff }}, 3 \mathrm{pF}$ typ.)

RoHS COMPLIANT halogen FREE

- Low $\mathrm{R}_{\mathrm{DS}(o n)}-115 \Omega$ max.
- Fully specified with single supply operation at $3 \mathrm{~V}, 5 \mathrm{~V}$ and dual supplies at $\pm 5 \mathrm{~V}$
- Low voltage, 2.5 V CMOS/TTL compatible
- $400 \mathrm{MHz},-3 \mathrm{~dB}$ bandwidth
- Excellent isolation and crosstalk performance (typ. > - 60 dB at 10 MHz )
- Fully specified from $-40^{\circ} \mathrm{C}$ to $85^{\circ} \mathrm{C}$ and $-40^{\circ} \mathrm{C}$ to $+125^{\circ} \mathrm{C}$
- 14 pin TSSOP and 16 pin miniQFN package ( $1.8 \mathrm{~mm} \times 2.6 \mathrm{~mm}$ )
- Compliant to RoHS Directive 2002/95/EC

## APPLICATIONS

- High-end data acquisition
- Medical instruments
- Precision instruments
- High speed communications applications
- Automated test equipment
- Sample and hold applications

FUNCTIONAL BLOCK DIAGRAM AND PIN CONFIGURATION

## ORDERING INFORMATION

| Temp. Range | Package | Part Number |
| :---: | :---: | :---: |
| $-40^{\circ} \mathrm{C}$ to $125^{\circ} \mathrm{C}^{\mathrm{a}}$ | 14 pin TSSOP | DG604EQ-T1-E3 |
|  | 16 pin miniQFN | DG604EN-T1-E4 |

## Notes:

a. $-40^{\circ} \mathrm{C}$ to $85^{\circ} \mathrm{C}$ datasheet limits apply.

| ABSOLUTE MAXIMUM RATINGS $\mathrm{T}_{\mathrm{A}}=25^{\circ} \mathrm{C}$, unless otherwise noted |  |  |  |
| :---: | :---: | :---: | :---: |
| Parameter |  | Limit | Unit |
| V+ to V- |  | 14 | V |
| GND to V- |  | 7 |  |
| Digital Inputs ${ }^{\text {a }}$, $\mathrm{V}_{\mathrm{S}}, \mathrm{V}_{\mathrm{D}}$ |  | $(\mathrm{V}-)-0.3 \text { to }(\mathrm{V}+)+0.3$ <br> or 30 mA , whichever occurs first |  |
| Continuous Current (Any Terminal) |  | 30 | mA |
| Peak Current, S or D (Pulsed 1 ms, 10 \% Duty Cycle) |  | 100 |  |
| Storage Temperature |  | -65 to 150 | ${ }^{\circ} \mathrm{C}$ |
| Power Dissipation (Package) ${ }^{\text {b }}$ | 14 pin TSSOP ${ }^{\text {c }}$ | 450 | mW |
|  | 16 pin miniQFN ${ }^{\text {d, }}$ e | 525 |  |
| Thermal Resistance (Package) ${ }^{\text {b }}$ | 14 pin TSSOP | 178 | C/W |
|  | 16 pin miniQFN | 152 |  |

Notes:
a. Signals on SX, DX, or INX exceeding V+ or V- will be clamped by internal diodes. Limit forward diode current to maximum current ratings.
b. All leads welded or soldered to PC board.
c. Derate $5.6 \mathrm{~mW} /{ }^{\circ} \mathrm{C}$ above $70^{\circ} \mathrm{C}$.
d. Derate $6.6 \mathrm{~mW} /{ }^{\circ} \mathrm{C}$ above $70^{\circ} \mathrm{C}$.
e. Manual soldering with iron is not recommended for leadless components. The miniQFN-16 is a leadless package. The end of the lead terminal is exposed copper (not plated) as a result of the singulation process in manufacturing. A solder fillet at the exposed copper lip cannot be guaranteed and is not required to ensure adequate bottom side solder interconnection.

## SPECIFICATIONS FOR DUAL SUPPLIES

Stresses beyond those listed under "Absolute Maximum Ratings" may cause permanent damage to the device. These are stress ratings only, and functional operation of the device at these or any other conditions beyond those indicated in the operational sections of the specifications is not implied. Exposure to absolute maximum rating conditions for extended periods may affect device reliability.

Vishay Siliconix maintains worldwide manufacturing capability. Products may be manufactured at one of several qualified locations. Reliability data for Silicon Technology and Package Reliability represent a composite of all qualified locations. For related documents such as package/tape drawings, part marking, and reliability data, see www.vishay.com/ppg?69934.

| L1 | 0.45 | 0.50 | 0.55 | 0.018 | 0.020 | 0.022 |
| $\mathrm{N}^{(3)}$ | 16 |  |  | 16 |  |  |
| $\mathrm{Nd}{ }^{(3)}$ | 4 |  |  | 4 |  |  |
| $\mathrm{Ne}{ }^{(3)}$ | 4 |  |  | 4 |  |  |

## Notes

${ }^{(1)}$ Use millimeters as the primary measurement.
${ }^{(2)}$ Dimensioning and tolerances conform to ASME Y14.5M. - 1994.
${ }^{(3)} \mathrm{N}$ is the number of terminals. Nd and Ne is the number of terminals in each D and E site respectively.
(4) Dimensions b applies to plated terminal and is measured between 0.15 mm and 0.30 mm from terminal tip.
${ }^{(5)}$ The pin 1 identifier must be existed on the top surface of the package by using identification mark or other feature of package body.
${ }^{(6)}$ Package warpage max. 0.05 mm .

## Disclaimer

ALL PRODUCT, PRODUCT SPECIFICATIONS AND DATA ARE SUBJECT TO CHANGE WITHOUT NOTICE TO IMPROVE RELIABILITY, FUNCTION OR DESIGN OR OTHERWISE.

Vishay Intertechnology, Inc., its affiliates, agents, and employees, and all persons acting on its or their behalf (collectively, "Vishay"), disclaim any and all liability for any errors, inaccuracies or incompleteness contained in any datasheet or in any other disclosure relating to any product.

Vishay makes no warranty, representation or guarantee regarding the suitability of the products for any particular purpose or the continuing production of any product. To the maximum extent permitted by applicable law, Vishay disclaims (i) any and all liability arising out of the application or use of any product, (ii) any and all liability, including without limitation special, consequential or incidental damages, and (iii) any and all implied warranties, including warranties of fitness for particular purpose, non-infringement and merchantability.

Statements regarding the suitability of products for certain types of applications are based on Vishay's knowledge of typical requirements that are often placed on Vishay products in generic applications. Such statements are not binding statements about the suitability of products for a particular application. It is the customer's responsibility to validate that a particular product with the properties described in the product specification is suitable for use in a particular application. Parameters provided in datasheets and / or specifications may vary in different applications and performance may vary over time. All operating parameters, including typical parameters, must be validated for each customer application by the customer's technical experts. Product specifications do not expand or otherwise modify Vishay's terms and conditions of purchase, including but not limited to the warranty expressed therein.

Hyperlinks included in this datasheet may direct users to third-party websites. These links are provided as a convenience and for informational purposes only. Inclusion of these hyperlinks does not constitute an endorsement or an approval by Vishay of any of the products, services or opinions of the corporation, organization or individual associated with the third-party website. Vishay disclaims any and all liability and bears no responsibility for the accuracy, legality or content of the third-party website or for that of subsequent links.

Except as expressly indicated in writing, Vishay products are not designed for use in medical, life-saving, or life-sustaining applications or for any other application in which the failure of the Vishay product could result in personal injury or death. Customers using or selling Vishay products not expressly indicated for use in such applications do so at their own risk. Please contact authorized Vishay personnel to obtain written terms and conditions regarding products designed for such applications.

No license, express or implied, by estoppel or otherwise, to any intellectual property rights is granted by this document or by any conduct of Vishay. Product names and markings noted herein may be trademarks of their respective owners.
