**Vishay Siliconix** 

## Power MOSFET

| PRODUCT SUMMARY            |                             |  |  |
|----------------------------|-----------------------------|--|--|
| V <sub>DS</sub> (V)        | 50                          |  |  |
| R <sub>DS(on)</sub> (Ω)    | V <sub>GS</sub> = 10 V 0.20 |  |  |
| Q <sub>g</sub> (Max.) (nC) | 10                          |  |  |
| Q <sub>gs</sub> (nC)       | 2.6                         |  |  |
| Q <sub>gd</sub> (nC)       | 4.8                         |  |  |
| Configuration              | Single                      |  |  |

#### **FEATURES**

- Low drive current
- Surface-mount
- Fast switching
- Ease of paralleling
- Excellent temperature stability
- Material categorization: for definitions of compliance please see www.vishay.com/doc?99912

#### DESCRIPTION

The power MOSFET technology is the key to Vishay's advanced line of power MOSFET transistors. The efficient geometry and unique processing of this latest "State of the Art" design achieves: very low on-state resistance combined with high transconductance; superior reverse energy and diode recovery dV/dt capability.

The power MOSFET transistors also feature all of the well established advantages of MOSFET'S such as voltage control, very fast switching, ease of paralleling and temperature stability of the electrical parameters.

Surface mount packages enhance circuit performance by reducing stray inductances and capacitance. The DPAK (TO-252) surface-mount package brings the advantages of power MOSFET's to high volume applications where PC Board surface mounting is desirable. The surface mount option IRFR9012, SiHFR9012 is provided on 16 mm tape. The straight lead option IRFU9012, SiHFU9012 of the device is called the IPAK (TO-251).

They are well suited for applications where limited heat dissipation is required such as, computers and peripherals, telecommunication equipment, dc-to-dc converters, and a wide range of consumer products.

| ORDERING INFORMATION            |               |                |                 |                |  |
|---------------------------------|---------------|----------------|-----------------|----------------|--|
| Package                         | DPAK (TO-252) | DPAK (TO-252)  | DPAK (TO-252)   | DPAK (TO-252)  |  |
| Lead (Pb)-free and halogen-free | SiHFR010-GE3  | SiHFR010TR-GE3 | SiHFR010TRL-GE3 | IRFR010PbF-BE3 |  |
| Lead (Pb)-free                  | IRFR010PbF    | IRFR010TRPbF   | IRFR010TRLPbF   | IRFR010TRRPbF  |  |

| <b>ABSOLUTE MAXIMUM RATINGS (T</b> C                      | = 25 °C, unless otherwis  | se noted)                         |             |          |
|---|---|-----------------------------------|-------------|----------|

#### Notes

• Dimensioning and tolerance confirm to ASME Y14.5M-1994

• All dimensions are in millimeters. Angles are in degrees

• Heat sink side flash is max. 0.8 mm

Radius on terminal is optional

ECN: E19-0649-Rev. Q, 16-Dec-2019 DWG: 5347

## Disclaimer

ALL PRODUCT, PRODUCT SPECIFICATIONS AND DATA ARE SUBJECT TO CHANGE WITHOUT NOTICE TO IMPROVE RELIABILITY, FUNCTION OR DESIGN OR OTHERWISE.

Vishay Intertechnology, Inc., its affiliates, agents, and employees, and all persons acting on its or their behalf (collectively, "Vishay"), disclaim any and all liability for any errors, inaccuracies or incompleteness contained in any datasheet or in any other disclosure relating to any product.

Vishay makes no warranty, representation or guarantee regarding the suitability of the products for any particular purpose or the continuing production of any product. To the maximum extent permitted by applicable law, Vishay disclaims (i) any and all liability arising out of the application or use of any product, (ii) any and all liability, including without limitation special, consequential or incidental damages, and (iii) any and all implied warranties, including warranties of fitness for particular purpose, non-infringement and merchantability.

Statements regarding the suitability of products for certain types of applications are based on Vishay's knowledge of typical requirements that are often placed on Vishay products in generic applications. Such statements are not binding statements about the suitability of products for a particular application. It is the customer's responsibility to validate that a particular product with the properties described in the product specification is suitable for use in a particular application. Parameters provided in datasheets and / or specifications may vary in different applications and performance may vary over time. All operating parameters, including typical parameters, must be validated for each customer application by the customer's technical experts. Product specifications do not expand or otherwise modify Vishay's terms and conditions of purchase, including but not limited to the warranty expressed therein.

Except as expressly indicated in writing, Vishay products are not designed for use in medical, life-saving, or life-sustaining applications or for any other application in which the failure of the Vishay product could result in personal injury or death. Customers using or selling Vishay products not expressly indicated for use in such applications do so at their own risk. Please contact authorized Vishay personnel to obtain written terms and conditions regarding products designed for such applications.

No license, express or implied, by estoppel or otherwise, to any intellectual property rights is granted by this document or by any conduct of Vishay. Product names and markings noted herein may be trademarks of their respective owners.
