## Optocoupler, Phototransistor Output, High Reliability, 5300 Vms $^{\text {RM }} 110^{\circ} \mathrm{C}$ Rated

## DESCRIPTION

The $110{ }^{\circ} \mathrm{C}$ rated SFH617A (DIP) feature a high current transfer ratio, low coupling capacitance and high isolation voltage. These couplers have a GaAs infrared diode emitter, which is optically coupled to a silicon planar phototransistor detector, and is incorporated in a plastic DIP-4 package. The coupling devices are designed for signal transmission between two electrically separated circuits.
The couplers are end-stackable with 2.54 mm spacing. Creepage and clearance distances of $>8.0 \mathrm{~mm}$ are achieved with option 6.

## FEATURES

- Operating temperature from $-55^{\circ} \mathrm{C}$ to $+110^{\circ} \mathrm{C}$
- Good CTR linearity depending on forward current

- Isolation test voltage, $5300 \mathrm{~V}_{\mathrm{RMS}}$
- High collector emitter voltage, $\mathrm{V}_{\mathrm{CEO}}=70 \mathrm{~V}$
- Low saturation voltage
- Fast switching times
- Low CTR degradation
- Temperature stable
- Low coupling capacitance
- End stackable, 0.100 " ( 2.54 mm ) spacing
- High common mode interference immunity
- Material categorization: for definitions of compliance please see www.vishay.com/doc?99912

## APPLICATIONS

- AC adapter
- SMPS
- PLC
- Factory automation
- Game consoles

## AGENCY APPROVALS

The safety application model number covering all products in this datasheet is SFH617A. This model number should be used when consulting safety agency documents.

- UL1577, file no. E52744
- cUL tested to CSA 22.2 bulletin 5A
- DIN EN 60747-5-5 (VDE 0884-5) available with option 1
- BSI IEC 60950; IEC 60065
- FIMKO
- CQC

## Notes

- Stresses in excess of the absolute maximum ratings can cause permanent damage to the device. Functional operation of the device is not implied at these or any other conditions in excess of those given in the operational sections of this document. Exposure to absolute maximum ratings for extended periods of the time can adversely affect reliability.
${ }^{(1)}$ Refer to reflow profile for soldering conditions for surface mounted devices (SMD). Refer to wave profile for soldering conditions for through hole devices (DIP).

## Note

- As per DIN EN 60747-5-5, § 7.4.3.8.2, this optocoupler is suitable for "safe electrical insulation" only within the safety ratings. Compliance with the safety ratings shall be ensured by means of protective circuits.
