## Notes

- Part marking: value; tolerance: due to resistor size limitations some resistors will be marked with only the resistance value
(1) WSLP1206 $0.0005 \Omega$ to $0.00099 \Omega$ is only available with $2 \%$ tolerance (G tolerance code)

## Notes

(1) WSL marking (www.vishay.com/doc?30327); WSL decade values (www.vishay.com/doc?30117)
(2) Packaging code: EB (lead (Pb)-free) and TB (tin / lead) are non-standard packaging codes that designate 1000 piece reel quantities. These non-standard packaging codes are identical to our standard EA (lead (Pb)-free) and TA (tin / lead), except that they have a package quantity of 1000 pieces
