Push-on speed nut

Part Number: **SN0461-C**

Description: Speed nut with coating, which secures the indicator in place

• One piece, self-locking, heat-treated, spring-steel fastener that replaces threaded nut, lock washer or spanner washer

• Eliminates time-consuming assembly operations

• Fast and easy to apply, the speed nut fastener provides maximum holding power at minimum cost per fastener

• It does not shake loose from vibration, yet can be easily loosened without worry about rust-frozen screw threads

• For smaller components where space is premium

• Requires less torque than standard hex-nuts

• Can be installed prior to painting process so threads won't fill.
