SlimFix are conductor and cable markers with a spacesaving design. The markers can be fitted even after the conductor has been installed. They consist of halogenfree material and comply with flammability rating V0/V2. SlimFix is an acknowledged and accredited marker type for traffic engineering applications. The SF tool allows easy installation, even in case of small markers.

Advantages:

- Halogen-free material
- Flammability rating V0/V2
- Approved and accredited markers for traffic engineering applications, etc.
- Has to be fixed with cable ties if the conductor crosssection is larger than 16.0 mm²
- Markers in proven MultiCard format
