"Renewing Joints" Kit, 4 Pcs.

wolfcraft®

For scraping out old silicone and acrylic joints and smoothing new ones

Properties

- "Renewing Joints", 4 pcs., consisting of joint scraper, 2 joint smoothers, and a matching holder
- joint scraper:
- made of sturdy, fibreglass-reinforced plastic (GFRP), for durability and easy cleaning
- centre spike for easily scraping out the joint
- rectangular geometry for safely guiding the tool in the joint
- 2 chamfered edges makes it easy to thoroughly remove silicone and acrylic from tiles and ceramics along the sides
- ergonomic handle for comfortable handling and fatigue-free working
- joint smoothers:
- 1 joint smoother with 45° edge profile, dual-sided: width 5 and 10 mm
- 1 joint smoother with round profile, dual-sided: radius 6 and 8 mm
- made of low-maintenance silicone for easy cleaning
- can be used flexibly with and without holder as needed
- holder for the joint smoother:
- made of sturdy GFRP for a long life and easy cleaning
- ergonomic handle for comfortable handling and fatigue-free working
- holder for the joint smoother for quick exchange of the smoothers and secure fit

Scope of delivery

1 joint scraper
1 joint scraper with 45° edge profile
1 joint scraper with round profile
1 holder for the joint smoother
