

## 915 MHz Antenna

### Key Features

- 915 MHz
- ¼ Lambda Dipole Antenna
- SMA/m connector

### Description

The Hydra is a robust antenna for 915 MHz applications. The antenna has a SMA/m connector. With its high efficiency > 70% it is well suited for every application with critical range.

Because of the antenna technology, the dipole design, no additional ground plane is required.

### Range of Application

The environmental robustness of IP65 and operating temperature of -40°C to 85°C makes the Hydra a good match for industrial applications. The Hydra suits as well for all 915 MHz applications like ISM, IoT, M2M and many more.
