NAVIGATION TIPS

There are primarily three ways to navigate the interactive Yazaki Connector Catalog.

1. **SEARCH FUNCTION** — *Navigate By Part Number Or Keyword*
2. **DOCUMENT LINKS** — *Navigate To Catalog Menus*
3. **PAGE-ADVANCE BUTTONS** — *Navigate Page-By-Page*

1. SEARCH FUNCTION *Navigate By Part Number Or Keyword*

Click the SEARCH button  on the PDF's top bar.

On-the-right side of the screen, enter any part number, or keyword, into the data field. Click SEARCH. Results are displayed in the window directly below the field.

Click on any result and the corresponding page will be displayed.

NOTE: You can also jump to specific pages by clicking the left-side BOOKMARKS tab.  Click any of the bookmarks listed and it's corresponding page will be displayed.

2. DOCUMENT LINKS

Navigate To Catalog Menus

Links located on each PDF page can help you quickly jump to areas of interest. At the top of page one, for example, are links that allow you to immediately access either of the catalog's two major CONTENT MENU's.

From the CONTENT MENU you can link to any connector SERIES MENU.

The connector SERIES MENU offers a variety of links to data about that particular series of connectors.

RETURN to an earlier menu at any time by clicking the link at the top of any page.

3. PAGE-ADVANCE BUTTONS

Navigate Page-By-Page

Click on either arrow at the bottom of the PDF window. This will allow you to view the catalog page-by-page.

To jump to the first or last page of the catalog, click on the respective outside arrow.

BACK TO YESC
CONTENTS MENU

Yazaki's YESC Series has evolved from decades of intensive design refinement. As the world's largest supplier of vehicle power and data networks and associated components, Yazaki is uniquely qualified to deliver leading-edge connector solutions. The company continues to provide these innovative systems to automotive customers around the world, for vehicles of virtually every description.

The YESC Series represents an important connector resource, delivering enhanced network performance in a broad range of applications. Standards, hybrids, custom designs; sealed or unsealed – Yazaki has the connector system to meet your requirements.

YAZAKI

ALL SYSTEMS GO!

Yazaki is a premier provider of innovative, robust power and data networks that are flexible, easily configurable and cost competitive. Our global reach, along with our collaborative approach and in-depth vehicle-launch support, give Yazaki customers an unprecedented resource for their power and data system needs.

Yazaki products, manufactured in plants on six continents, help power one out of every three passenger vehicles on the road, worldwide. That translates into more than 18 million connectors and 110 million terminals every day. Our leadership position reflects a commitment to excellence that has made Yazaki the industry's most innovative provider of power and data system components.

From our three design centers in North America, Japan and Europe, Yazaki advances the evolution of these critical automotive components, providing connectivity solutions that contribute to greater customer satisfaction. Our design centers apply specialized engineering expertise to the specific needs of vehicle manufacturers and their tier-supply partners. The result: Yazaki's global customers are assured of vehicle power and data solutions that deliver highly effective solutions to real-world challenges.

Our benchmark product quality – in connector systems, wire harnesses, electronics, and IP displays – delivers exceptional value and marketplace strength to our customers.

YAZAKI ENGINEERING STANDARD CONNECTORS

SYSTEM FEATURES

- Wide Range of Advanced Connectors Available Immediately**
The YESC Series includes a full range of connector systems in stock – and available for immediate delivery worldwide – for virtually any vehicle application.
- USCAR / ISO Standard Compliant**
Terminal blade sizes are in accordance with USCAR and ISO standards (0.64 x 0.64, 1.5 x 0.8, 2.8 x 0.8, 6.3 x 0.8).
- Terminal Position Assurance Device**
Yazaki's Terminal Position Assurance Device is available front-loaded and preset to the connector housing.
- Connector Position Assurance Device**
The Connector Position Assurance Device is available preset to the female terminal connector housing.
- Wire Gauges for Every Application**
The YESC Series is compatible with a wide range of both US (AWG) and metric (mm²) wire sizes.

unsealed connection system

Construction

Specifications

Material	Connector	PBT + GF
	Male Terminal	Copper Alloy (Sn/Au Plate)
	Female Terminal	Copper Alloy (Sn/Au Plate)
Operating Temperature Range		-40°C ~ 100°C (120°C max temp.) (USCAR Class II)
Current Capacity		(See Chart)
Voltage Drop		20mΩ Max (Term./Term.) (Crimp-To-Crimp)
Isolation Resistance		500VDC, 20MΩ Min
Dielectric Resistance		1000VAC (1 min.)
Applicable Wire Size		22AWG ~ 18AWG (0.22mm ² ~ 0.76mm ²)
Terminal Pitch		Horizontal: 2.54mm; Vertical: 2.54mm
Terminal-to-Connector Retention Force		75N Min
Connector-to-Connector Retention Force		110N Min

Current Rating Curve (Reference Only)

This data is based on single circuit/connector evaluation. Data should be used as reference only. Appropriate derating should be considered based upon specific application requirements.

YAZAKI ENGINEERING STANDARD CONNECTORS

2.8 x 0.8

unsealed connection system

Construction

Specifications

Material	Connector	HPA
	Male Terminal	Copper Alloy (Sn Plate)
	Female Terminal	Copper Alloy (Sn Plate)
Operating Temperature Range		-40°C ~ 125°C (145°C max temp.) (USCAR Class III)
Current Capacity		(See Chart)
Voltage Drop		10mΩ Max (Term./Term.) (Crimp-To-Crimp)
Isolation Resistance		500VDC, 20MΩ Min
Dielectric Resistance		1000VAC (1 min.)
Applicable Wire Size		22AWG ~ 14AWG (0.35mm ² ~ 2.5mm ²)
Terminal Pitch		Horizontal: 5.00mm; Vertical: 6.80mm
Terminal-to-Connector Retention Force		90N Min
Connector-to-Connector Retention Force		110N Min

Current Rating Curve (Reference Only)

This data is based on single circuit/connector evaluation. Data should be used as reference only. Appropriate derating should be considered based upon specific application requirements.

0.35mm² rating curve not shown. Current capability of terminal exceeds capacity of wire.

Retainer Clip/Bracket Dimensions

UNIT: mm

Technical drawings of the Retainer Clip/Bracket showing top, side, and perspective views with dimensions. The top view shows a rectangular shape with a total length of 10.005 mm, a width of 5.85 mm, and a notch width of 2.55 mm. The side view shows a height of 10.05 mm and a radius of R0.80. The perspective view shows a depth of 0.90 mm and a height of 2.40 mm. A table below the drawings provides part number and panel hole requirements.

THE YESC KAIZEN CONNECTION

YESC KAIZEN stands for continuous improvement – the heart of a tradition that's helped make Yazaki the world's largest supplier of vehicle power and data networks, and related components. Now we've extended that tradition, combining Yazaki quality standards with highly cost-efficient engineering, to create the new YESC KAIZEN connector series. The latest addition to the Yazaki Engineering Standard Connectors (YESC) line, YESC KAIZEN connectors help engineers meet the aggressive performance, cost, and serviceability requirements of today's more capable, feature-rich vehicles. When it comes to continuous improvement in connectors, look to YESC KAIZEN from Yazaki.

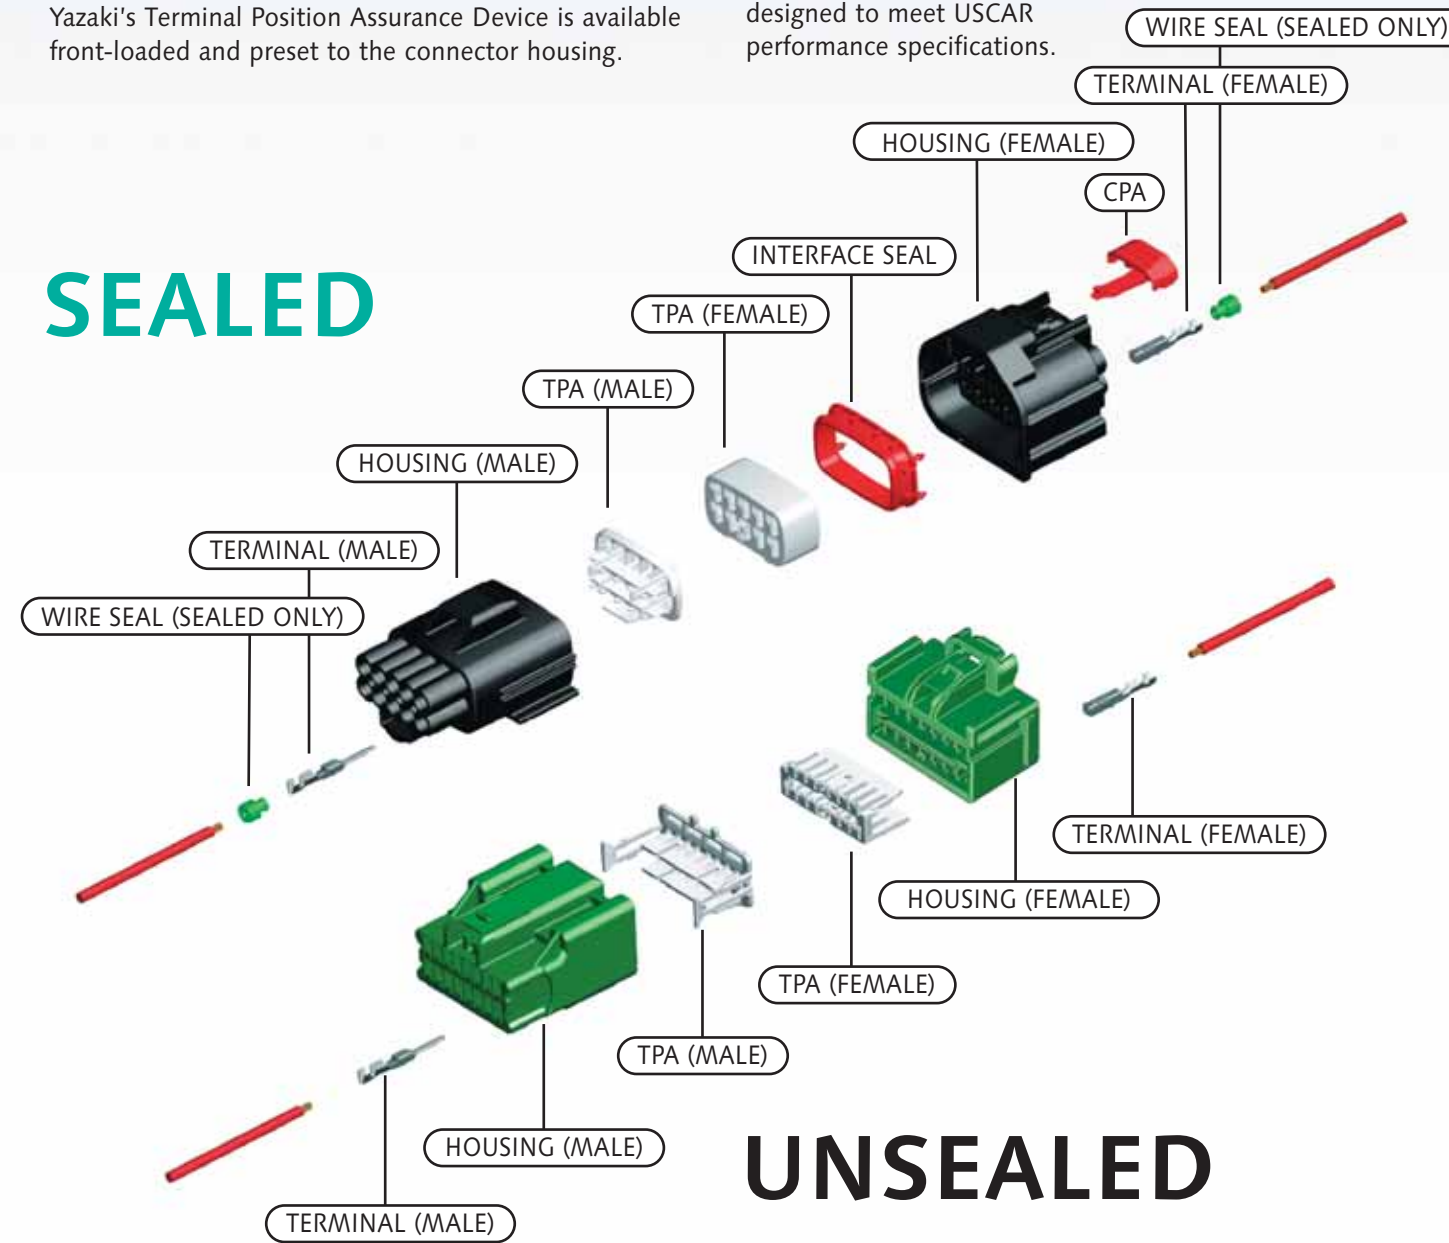

YESC KAIZEN CONNECTORS

BACK TO YESC KAIZEN
CONTENTS MENU

SYSTEM FEATURES

- Popular-Size Sealed and Unsealed Connectors Available Immediately**
 The YESC KAIZEN connector series includes a full range of sealed and unsealed connector styles in stock, available for immediate delivery worldwide – for virtually any vehicle application.
- USCAR / ISO Standard Compliant**
 Terminal blade sizes meet USCAR and ISO standards (0.64 x 0.64, 1.5 x 0.8, 2.8 x 0.8, 6.3 x 0.8).
- Terminal Position Assurance Device**
 Yazaki's Terminal Position Assurance Device is available front-loaded and preset to the connector housing.
- Wire Gauges for Every Application**
 The YESC KAIZEN connector series is compatible with a wide range of both US (AWG) and metric (mm²) wire sizes.
- Interchangeable With YESC**
 All YESC KAIZEN connectors (except for the 0.64 series) have the same footprint as, and are fully interchangeable with, equivalent standard YESC.
- Designed to Perform**
 All YESC KAIZEN connectors are designed to meet USCAR performance specifications.

Construction

Specifications

Material	Connector	PBT+GF
	Male Terminal	Copper Alloy (Sn/Au Plate)
	Female Terminal	Copper Alloy (Sn/Au Plate)
Operating Temperature Range		-40°C ~ 100°C (120°C max temp.) (USCAR Class II)
Current Capacity		(See Chart)
Voltage Drop		20mΩ max (Term./Term.) (Crimp-to-Crimp)
Isolation Resistance		500VDC, 20MΩ min
Dielectric Resistance		1000VAC (1 minute)
Applicable Wire Size		22AWG ~ 18AWG (0.30mm ² ~ 0.85mm ²) 1.90mm max Wire O.D.
Terminal Pitch		Horizontal: 2.54mm; Vertical: 2.54mm
Terminal-to-Connector Retention Force		75N min
Connector-to-Connector Retention Force		110N min

Current Rating Curve (Reference Only)

This data is based on single circuit/connector evaluation. Data should be used as reference only. Appropriate derating should be considered based upon specific application requirements.

unsealed connection system

Construction

Specifications

Material	Connector	PBT + GF
	Male Terminal	Copper Alloy (Sn Plate)
	Female Terminal	Copper Alloy (Sn Plate)
Operating Temperature Range		-40°C ~ 125°C (145°C max temp.) (USCAR Class III)
Current Capacity		(See Chart)
Voltage Drop		10mΩ max (Term./Term.) (Crimp-to-Crimp)
Isolation Resistance		500VDC, 20MΩ min
Dielectric Resistance		1000VAC (1 minute)
Applicable Wire Size		22AWG ~ 14AWG (0.35mm ² ~ 2.5mm ²)
Terminal Pitch		Horizontal: 5.00mm; Vertical: 6.80mm
Terminal-to-Connector Retention Force		90N min
Connector-to-Connector Retention Force		110N min

Current Rating Curve (Reference Only)

This data is based on single circuit/connector evaluation. Data should be used as reference only. Appropriate derating should be considered based upon specific application requirements.

0.35mm² rating curve not shown.
Current capability of terminal exceeds capacity of wire.

2.8 x 0.8

Construction

Specifications

Material	Connector	See Section
	Male Terminal	Brass (Sn Plate)
	Female Terminal	Copper Alloy (Sn/Au Plate)
Operating Temperature Range		-40°C ~100°C (125°C max temp.) (USCAR Class II)
Current Capacity		(See Chart)
Voltage Drop		10mΩ max (Term./Term.)
Isolation Resistance		500VDC, 20MΩ min
Dielectric Resistance		1000VAC (1 minute)
Terminal-to-Connector Retention Force		90N min
Connector-to-Connector Retention Force		110N min
