## Material Shortage Announcement

Date 3/15/2017

### Shortage of white and natural Valox 357 resin affecting delivery of E/F Series Single Pole Panel Mount Switches from ZF Electronic Systems Pleasant Prairie, LLC.

As you are probably already aware, there is a worldwide shortage of white and natural Valox 357 resin, which is further explained in the following article:

<http://www.plasticsnews.com/article/20161104/NEWS/161109910/new-computer-system-causes-delivery-problems-for-sabic>

In order to prevent any delay in delivery of ZF's single pole panel mount switches ("Switches"), ZF will be offering the Switches with a **black** Valox 357 case and cover. The Switches affected by this material shortage are the following **0F68, 0F69, 0E65, 0E68, 0E69 series switches:**

**0E65-00A0**  
**0E65-21AH**  
**0E65-42A0**  
**0E68-00A0**  
**0E68-01A0**  
**0E68-30A0**  
**0E68-40A0**  
**0E68-43AD**  
**0E69-00A0**  
**0E69-15AB**  
**0E69-30A0**  
**0E69-40A0**  
**0E69-60C0**  
**0E69-65C0**  
**0E69-69B0**  
**0E69-78C0**  
**0F68-24A0**  
**0F68-26A0**

**0F68-27A0**

**0F69-75A0**  
**0F69-76A0**

Page 2/3 · Date 3/15/2017

Only the case and cover of these Switches will be offered in black resin material; the buttons are comprised of a separate material and will continue to be produced in white. This change will not affect the form, fit or function of the Switches or impact regulatory agency listings.

We apologize for any cosmetic concerns this may cause your customers but utilizing the black material was the only way to maintain production. Thank you for your understanding during this situation. We will continue to communicate with you as more information becomes available.

Kind Regards,

ZF Electronic Systems Sales Team
